

## REPORT U. S. TROOPS ENCOUNTER SNIPERS

### SIX OR SEVEN SOLDIERS SAID TO HAVE BEEN SHOT

#### UNOFFICIAL REPORTS OF SNIPING REACH COLUMBUS, N. M.

**American Expedition is Reaching Villa Territory in the Casas Grandes Region—Troops Are Reported to Be Led By Mormon Scouts—Garcia Denies Carranza Troops Are With Americans.**

COLUMBUS, N. M., March 16.—(via mail to El Paso.)—While most of the reports reaching here unofficially today from the Mexican border indicated that the American troops in Mexico were unmolested in their advance there were also reports that a few snipers had been encountered. There was nothing to show which of the American columns might have encountered the snipers.

**Report Six or Seven Shot.**  
According to these reports six or seven soldiers of the American expedition had been hit by snipers. Troop trains came in here during the night and Columbus awoke today to find the camp had grown considerably in population since last evening. A new lot of cavalry horses was needed. Great piles of supplies, in boxes and stacks of baled hay had sprung up near the railway station. Quartermaster wagons left constantly over the road to the south during the day.

In a sage brush plain off to the side of the camp a number of aeroplanes were tried out. They had been set up since their arrival yesterday and were tested thoroughly today. One or two at a time were in the air most of the day. None of the aviators have yet joined the advance columns, so far as could be ascertained here. The strict military censorship of all news on troop movement out of Columbus has not yet been relaxed.

**Nearing Villa Territory.**  
El Paso, Texas, March 16.—The Seventh and Tenth cavalry said to be advancing into Mexico by forced marches from Culberson's ranch near Hachita, N. M., were nearing the Villa territory in the Casas Grandes region tonight according to the most reliable information which could be obtained here.

These troops are reported to be marching with the minimum of equipment and to be led by Mormon scouts from the Mormon colonies at Colonia Dublan and Colonia Morales. From their point of departure the distance is 85 miles to Casas Grandes and the start was made early yesterday morning. If Villa intends to offer any organized resistance to his pursuers it might be possible for United States soldiers to come in contact with his outposts very soon. The American expedition is penetrating Mexico under ideal weather conditions. The hot season will not be reached for a month or six weeks and if the wind mill wells which dot part of the country thru which the expedition is passing are not dried up the water supply situation should be relieved. Clear moonlight nights make it possible to see after dark for some distance. Definite information that the Mormon settlements with their 500 American men, women and children were safe and unmolested was brought here today by Daniel Hurst, son of P. H. Hurst, the Mormon bishop resident here. Mr. Hurst brought news understood to be of much military importance which was forwarded to General Pershing. Mr. Hurst refused to make public its nature or details.

**Villa Has Only 400 Men.**  
According to Mr. Hurst, Villa has at most 400 men, some of whom are wounded. He said also that it was not believed in the Mormon colonies that the bandit chief had more than 500 men with him when he raided Columbus.

What the intentions of Villa are remains a profound mystery today. Andres Garcia, the Carranza consul here, asserted today that from information in his possession he was satisfied that Villa had disbanded most of his men and intended to take refuge in the heart of the Sierra Madre with only three or four trusted companions.

"Thousands of men are not wanted to pursue Villa," said Consul Garcia. "He has no intention of fighting anyone, but will take refuge in the mountains which he knows so well. He will be captured, I believe, when a price is put on his head."

A flat denial that there were any Carranza troops with the American expedition was made today by General Gavira, the Carranza commander at Juarez. General Gavira made

#### LEWIS APPEALS TO PUBLIC TO REFRAIN FROM RECKLESS SPEECHES

Illinois Senator Addresses Economic Society of Worcester, Mass.

Worcester, Mass., Mar. 16.—An appeal to the public to refrain from "reckless speeches" regarding the Mexican situation which might produce consequences beyond our present calculations was voiced tonight by United States Senator James Hamilton Lewis of Illinois in a speech before the Economics Society of Worcester.

"If the United States," said Senator Lewis, "thru careless speeches or unguarded acts of its citizens infuse the people of Mexico with a fear that our present entrance is for some other purpose than that of punishing a lawless band of men for their murderous conduct we may bring upon us such opposition from Mexico as would result in the unnecessary killing of many of our men."

Senator Lewis said the situation confronting President Wilson was a counter part of that during the revolution of Juarez when many influences were brought to bear ineffectually to force President Lincoln to intervene in Mexico.

#### THREE HUNDRED MECHANICS AND CAR BUILDERS STRIKE

ST. LOUIS, March 16.—Three hundred mechanics and car builders employed by the United Railways, the local traction company, struck today. They said 45 of their number had been discharged for joining a welfare club and that a wage increase of 5 cents an hour had been refused by the company.

Bruce Cameron, superintendent of the company, denied there was a strike, but said some of the men had quit work because they were dissatisfied. Traction service was not affected by the strike.

#### CONVICT TWO FOR PERJURY.

Danville, Ill., Mar. 16.—George Spindell and William Eaton of Mattone were found guilty of perjury this afternoon and sentenced by District Judge Wright to two years and to pay fines of \$500 and costs each. The two men were arrested for false swearing in the case of Dr. Logan Estes and John C. Miller, tried for using the mails to defraud, which resulted in a disagreement by the jury.

#### TO ACT PROMPTLY ON DEFENSE BILL

**House Votes Special Rule By Which Army Bill Will Be Taken Up Today**

#### LIMIT GENERAL DEBATE

**Senate Committee Completes Final Review of Senate Army Increase Measure**

#### EXPECT HOUSE VOTE SOON

WASHINGTON, Mar. 16.—Sweeping aside intervening issues, congress set the stage today for prompt action on the national defense measures urged by President Wilson since the session began.

The house voted unanimously for a special rule under which the army increase bill will be taken up at eleven o'clock tomorrow morning with passage by Saturday night in prospect. A ten hour limit for general debate was fixed despite the fact that the bill is the most far-reaching military measure ever favorably reported to the body.

The senate military committee completed its final review of the senate army increase bill, and it was in the hands of the printer tonight. Senator Chamberlain with the administration's influence behind him will insist that it be taken up promptly, displacing the water power bill now under consideration unless the latter reaches a vote in a few days. The senate measure in some respects proposes an even more drastic change in military policy than is provided for in the house bill. Indications are that the joint conference committee which will adjust the two bills and frame the final measure will be at work within three weeks. The legislative frame work of the army increase project may be an accomplished fact within another month.

While the naval program has appeared to progress more slowly possibly it will be completed sooner than the army projects. The increase bills for the army, known as organization bills, are distinct from the appropriation measures which will provide money to carry out the authorized plans. These will have to be framed and passed after the passage of the organization bills.

The navy bill, under hearings for months before the house committee is composite including the appropriations as well as the program. Hearings will end about April 1st.

The senate naval committee will not hold hearings on the appropriation bill. It has before it now the personnel reorganization measure carrying out Secretary Daniels plan for selective promotion.

The house acted today after President Wilson had summoned leaders and urged them to make haste with the defense program as a duty to the nation.

Representative Burnett who had right of way on the floor with the immigration bill, was induced to make way for the army measure and the special rule went thru with a rush. The immigration bill will be taken up next.

#### FIGHTERS CONTINUE WORK.

New York, Mar. 16.—Altho the snow storm had made the roads in this vicinity almost impassable in places neither Jess Willard nor Frank Moran shirked road work today. Early this morning each covered three miles at a fairly good pace and neither showed any sign of fatigue.

#### TO BUY HORSES FOR U. S. ARMY

East St. Louis, Ill., Mar. 16.—Captain C. E. Hawkins of the quartermaster's department of the United States army arrived here today to arrange for the purchase of 1050 horses and probably 1,000 mules in this market. The government will spend here at once for horses and mules about \$325,000.

#### DENY REPORTS OF RIOTING.

Nogales, Ariz., Mar. 16.—Denial of reports of rioting among Mexican miners at Lordsburg, N. M., was made tonight by Sheriff Allen at that place. He said 300 miners were peacefully at work with no sign of trouble anywhere in that district.

#### PASSENGER STEAMER TUBANTIA IS SUNK

**SHIP STRIKES MINE OR IS ATTACKED BY SUBMARINE**

Three Americans are said to have been on board—All of the Passengers and Crew are Believed to Have Been Rescued.

London, Mar. 16.—The Holland-Lloyd Passenger Steamer Tubantia sank early today off the Noord Hinder Lightship as the result of striking a mine or an attack by a submarine. All the passengers, among whom are said to have been several Americans, and the members of the crew are believed to have been rescued. The steamer carried between 80 and 90 passengers and a crew of 300. She was a vessel of 15,000 tons.

The Tubantia left Amsterdam Wednesday for the River Plate and she was to have stopped at Palmouth for additional passengers and freight. Early this morning wireless distress calls were received at the Hook of Holland and torpedo boats and other craft rushed to her assistance. Some of these boats reached the steamer before she sank and took off passengers and members of the crew while others plucked up survivors from the ships boats in which they had taken refuge after the explosion.

The first flashes from the liner said she had been torpedoed and was in a sinking condition near the Noord Hinder lightship. Later messages credited the disaster to the vessel coming in contact with a submarine. Until full details of the sinking of the steamer are at hand it will be impossible to say definitely what was the cause of the sinking. Among the American passengers said to have been on board the Tubantia was Richard Schilling, described as an American consul, and his wife and daughter.

Seventy survivors of the disaster were taken into Flushing, Holland, by two torpedo boats. Others took refuge on board the lightship while still others were picked up by Dutch and Swedish steamers. Those arriving at Flushing said the explosion occurred at 2:30 o'clock this morning just as the Tubantia was about to drop anchor. Opinions among them varied as to whether the vessel had struck a mine or been torpedoed by a submarine.

#### POLICE OF CHICAGO NOW HAVE FOUR STRIKES TO DEAL WITH

Three Develop Thursday in Addition to the Strike at the Corn Products Company at Argo.

Chicago, March 16.—The police of Chicago now have four comparatively unorganized strikes of local labor to deal with.

Three of them developed today in addition to the strike at the Corn Products company at Argo. Four hundred laborers quit at the Pullman car shops, demanding an increase from 21 to 25 cents an hour. A number of laborers went out at the Patent Vulcanite Roofing company, asserting that they would not return until their wages were increased from 17 to 25 cents an hour. The third movement involved a small number of Chicago & Alton railroad track laborers employed in the vicinity of the Argo plant. They claim that the railroad has not given them an increase promised for March 1st.

Emmett Flood, an organizer for the American Federation of Labor, appeared at Argo to organize the strikers. Only minor disturbances were reported. The trouble at the plant of the Vulcanite company led to the shooting of one man when he attempted to go to work. He was wounded in the leg.

Shots were also reported to have been exchanged near the Argo plant when deputies and men said to have been strike breakers entered the plant. Twelve arrests were made but toward noon hostilities ceased and possibility of a settlement of the trouble became visible.

C. F. Jeffries of the Argo plant stated today that between 300 and 500 men had returned to work. Anthony Kossza, head of the strikers' grievance committee, asserted that a small number of strikers had gone back to work, but admitted that a number of employees had returned to their positions.

#### FIREFIGHT WILL REMAIN IN THREE EYE LEAGUE.

Freeport, Ill., Mar. 16.—Freeport will remain in the Three Eye League. It was announced tonight by officers of the local organization, A self-interest committee will start out tomorrow for funds with which to insure the retention of the franchise and it is expected that the amount necessary will have been raised by Monday.

#### UNDERTAKER DROPS DEAD.

Des Moines, Iowa, March 16.—While embarking the body of a two year old child today E. H. Young, president of the State Undertakers' association, dropped dead of heart disease.

#### ASSISTANT CASHIER ADMITS SHORTAGE

**WABASH MAN IS CHARGED WITH EMBEZZLING \$18,000**

Peculation of Employee in Office of Treasurer of Road Extend Over a Period of Seven Years—Lost Money on Poker and Dice.

St. Louis, March 16.—Robert E. Rigby, assistant cashier in the office of the treasurer of the Wabash railroad, today confessed to a shortage of \$18,000. He has been arrested. Rigby told an assistant circuit attorney that he had withheld the funds from monies received by him as assistant cashier. A charge of embezzlement has been placed against Rigby.

F. M. Meyers, manager of a surety company, said that a small discrepancy in Rigby's accounts led to an investigation. Rigby was questioned and finally confessed, Mr. Meyers said, to peculations extending over seven years.

According to Rigby's story as repeated by Mr. Meyers, Rigby spent the money on poker and dice. He intimated that men responsible positions with other firms had been associated with him in this gambling but he gave no names.

Rigby, who is about 35 years old, has been in the Wabash employ for seven years.

Rigby surrendered to a deputy sheriff after an information was issued. Rigby told the assistant circuit attorney that his system was to hold out part of a day's receipts and replace the deficit with money received the next day so that he always was a day behind in his dealings with the company.

Rigby told reporters that his peculations began about seven years ago but that he did not mean to imply that that he had been continuously short in his accounts during the seven years. According to an alleged confession made by Rigby, more than half the money taken was spent in gambling at dice, poker and the races. None of the embezzled money is now in the possession of Rigby, it was stated.

Rigby is unmarried and lives with his mother.

#### HOUSE PASSES BILL TO RETAIN PRESENT TARIFF ON SUGAR

Debate Resolves Itself Into a General Assault Upon and Defense of the Entire Underwood-Simmons Tariff Act.

Washington, March 16.—With 13 Democrats and the one Socialist member opposing, the house today by a vote of 346 to 14 passed the administration bill to retain the present tariff of one cent a pound on sugar instead of permitting the free clause of the Underwood-Simmons tariff act to go into effect next May 1st. The measure now goes to the senate.

Among those voting against the bill were Representatives Buchanan, Sabath, McAndrews and Tamm of Illinois.

Majority Leader Kitchin took the floor to close the argument. It was one of the few times Mr. Kitchin has appeared for an administration measure during the session.

The debate resolved itself into a general assault upon and defense of the entire Underwood-Simmons tariff act. Opening with the declaration that the Republican party was the original free sugar organization of the United States and quoting from congressional records and campaign books of the early 90's to prove his assertions, the majority leader drew attacks from former Speaker Cannon and other Republican tariff specialists.

#### CUSTOMS OFFICIALS WILL DELIVER AMMUNITION TO GEN. CALLES

DOUGLAS, Ariz., Mar. 16.—Three hundred thousand rounds of rifle ammunition the first shipment of a consignment of 700,000 rounds will be delivered tomorrow morning to General P. Elias Calles, military governor of Sonora by the local customs officials. The cartridges are to be used by the detachment of Carranza soldiers led by Colonel Dato Campbell, former commander of the Mexican garrison at Agua Prieta in aiding United States troops to capture Francisco Villa and his bandits. The ammunition which has been held up here by customs officials since Sunday was released today by orders from Washington. This action in aiding the de facto troops to obtain cartridges it was declared by Llevier, consul here would be of material benefit in assuring many residents of Sonora that the United States intended no aggressive action against the Mexican government.

#### ADJOURN TRIAL TO TODAY.

Chicago, Mar. 16.—Illness of Attorney Albert Fink, counsel for William Lorimer, today caused an adjournment of the trial of the former president of the LaSalle Street Trust and Savings bank, charged with conspiracy in wrecking the institution until tomorrow morning.

#### FRENCH REPULSE GERMAN ATTACK

**Teutons Are Driven Eastward Toward the Bois Des Corbeaux**

Repulse at the hands of the French again has been the net result of a German infantry attack launched with huge effectiveness after a heavy bombardment against French position at LeMort Homme northwest of Verdun. The Germans who attacked in masses were driven eastward toward the Bois Des Corbeaux, where the French guns inflicted heavy casualties on them.

#### ARTILLERY IS ACTIVE

**Italians Continue Strongly on Offensive Against Austrians on the Isonzo Front**

#### BOTH SIDES CLAIM SUCCESS

The attack at LeMort Homme constituted the only infantry maneuver along the entire French front, but from Belgium to the Vosges, artillery on both sides has been active at numerous points. Around Douaumont and the village of Vaux the big guns are operating with redoubled violence while southward in the Meuse valley the artillery duels in the Argonne forest the French guns are still shelling the German positions northwest of the road from Varennes and German batteries near Point Falcone.

Only engagements between patrols have taken place on the Russian front.

The Italians continue strongly on the offensive against the Austrians on the Isonzo front especially on the Podgora sectors southwest of San Martino. On Podgora the Italians entered the Austrian lines but according to Vienna were repulsed in vicious hand to hand fighting. Both Austrians and Italians lay claims to successes around San Martino. The Austrians assert that an Italian official statement declares that after a severe artillery and musketry preparation the Austrians launched two strong attacks and succeeded in reaching the edge of the trenches taken from them early but were on each occasion repulsed, "leaving the ground covered with dead."

The Dutch passenger steamer Tubantia bound from Holland for South America has been sunk by an explosion near the Noord Hinder lightship. All the passengers, among whom it is reported are several Americans and the members of the crew were saved. Whether the ship was torpedoed or struck a mine has not developed.

General Galleni the French minister of war has resigned because of poor health. General Roque will succeed him. A Berlin semi-official dispatch gives an Athens dispatch that British warships have bombarded Vula near Smyrna, almost entirely destroying the town and killing a large number of Greeks, who constituted a majority of the population.

#### REPORT DISCLOSES REMARKABLE RECOVERY OF IRON AND STEEL

NEW YORK, Mar. 16.—The fourteenth annual report of the United States steel corporation covering operations for 1915 was issued today and disclosed with much detail the remarkable recovery of the iron industry from its low state of the preceding year and the first quarter of 1915 to the highest level of activity and prosperity ever known. One of the most impressive features of the report is the item recording the corporations total volume of business at \$486,352,054, against \$380,228,143 in 1914. This increase of \$106,123,911 represents gain of 27.9 per cent. Of the total amount gained, domestic business showed an increase of 15.9 per cent and export business 122.4 per cent.

Edison Shows Another Need.

The suggestion of Thomas Edison before the house naval committee that a government laboratory to cost millions is greatly needed, furnishes only another striking evidence of the unprepared condition of the country for defensive measures. The Edison statement is that under present plans the construction of submarines and aeroplanes requires months of time, whereas the allotment for the work should be days instead of months. Still another startling evidence of the country's unprepared state is the apparent truth that a week's time has been necessary for the mobilization of 4,000 or 5,000 troops to go across the Mexican border.

Women Tackle Big Job.

Chicago women are to attempt something decidedly big in the political field, as a mass meeting will be held Saturday in the auditorium as a get-together protest against the spoils system. The women as the result of this meeting hope for a municipal organization with a platform broad enough to combat the spoils system in politics. When the women of Chicago settle this question and have purified Cook county politics so that the spoils do not furnish the underlying motive of action, everybody will agree that the millennial days have arrived.

Von Tirpitz Retires.

The resignation of Admiral Von Tirpitz of the German navy will be construed by the world at large as an indication that the emperor is not fully in accord with the drastic measures the admiral outlined. It is believed that the resignation was brought about by the unwillingness of the government to carry out the submarine policies so dear to the admiral. In the mind of the world the iron spirit of Von Tirpitz and his party has been responsible for the trend of German thought leading to a desire for conquest. It has been responsible, too, for the ruthless course followed in the war, and the resignation can be taken as an indication that Germany is ready to recede into the less blood thirsty policy of the future.

Those Philippine Troops.

The Sherman resolution suggesting that the U. S. troops now in the Philippines be withdrawn, is a two-edged sword and gives another evidence of the resourcefulness and quick wit of the Illinois senator. No one can deny the need that exists here at home for reinforcement to the regu-

lar army because of the Mexican trouble, and yet to withdraw the troops from the Philippines at this time would create a danger there. The statesmen who have been advocating early independence for the Philippines are put in a somewhat embarrassing position by the Sherman suggestion. In good faith they ought to vote for the return of the troops now or else acknowledge that conditions in the islands do not warrant the position that in four years more the population will be ready for self-government and that there will be no need of the protecting influence of the U. S.

Ship Prices Double.

It is the fashion now to talk about the high prices which have come from the war conditions, and the upward tendency of values has affected many lines. While the individual instances are few, the total is very large with reference to steam ships. According to a published record, the value of steam craft of all kinds has increased marvelously in the last six months and some enormous fortunes have been made in a short time. A New York broker paid a million and a half dollars for a 10,000 ton steam ship now under course of construction on the Pacific coast. This price meant an advance of almost \$700,000 over the builder's figure, and the broker is expecting to dispose of the property at a still higher price. The same rule applies to old vessels and one which has been in service for thirty-four years recently sold for \$45,000, more than twice what it would have brought on the market six months ago.

A Type of Dishonesty.

In an editorial for women on "The Dishonesty of Extravagance," Dorothy Dix writes:

"There are two kinds of thievery. One is the open and above board dishonesty of the robber, and the other is the dishonesty of the deadbeat. And of the two the dishonesty of the deadbeat is the more contemptible."

"The porch climber and the burglar risk their liberty and their necks in their profession; also they are avowed enemies to society and give you a chance to protect yourself against their depredations. And they do not prey upon their friends."

"The deadbeat, on the other hand, is a sneak thief who trades on the fact that this thievery is so smoothly done that he cannot be punished for it, and that he keeps always within the law. He is an inside worker against whom you cannot defend yourself, and his victims are his friends and his family and acquaintances, those who trust him."

"The deadbeat does not use a jimmy and a dark lantern when he starts out to rob. Nor does he put a pistol to the head of the individual he proposes holding up. His methods are much more subtle. He gets your money by borrowing and by means of bills that he makes without any means or the remotest intention of ever paying."

"When it comes down to a matter of real honesty, no man or woman convicted of thievery and serving their term in a penitentiary is one whit more guilty than those men and women who are always 'touching' us for a little loan, or who buy things that they cannot afford and for which they never pay."

The woman who deliberately employs a dressmaker, not knowing whether the bill can be promptly paid or not; the man or woman who will let the wages of a servant run unpaid from week to week; anyone who will contract bills of any sort, knowing that he does not intend to pay, or, having the intention of paying sometime will blithely spend his money for things not absolutely necessary while the debt runs on, is of the same type of mind as the holdup."

## CHICAGO HERALD POLITICAL

WRITER IS "SEEING THINGS"

Uses Picturesque Style in Endeavor to Show the Why of the Contest for Delegates to National Republican Convention in This District.

"The Senator" is the non-de-plume of a political writer on the Chicago Herald who occupies a column or two of space each day. Yesterday his article, illustrated with two cartoons concerned down state politics, particularly the 20th district. "The Senator" suggests that Andrew Russell as a candidate for the National Republican convention has taken the war path against the Sherman "trust" downstate.

The language is somewhat figurative and the purpose of the writer may be one of several. But no doubt the dominating idea was to stir up factional strife in the Republican party especially downstate. The intimation of the writer is that Senator Sherman as a favorite son candidate really has no chance of the Republican nomination and that the real anxiety to secure certain lists of delegates to the national convention is because of the trading possibilities which may result. The writer suggests that a few men like Walter Rosenthal and Homer Tice have conspired to carry off all the delegates and that it has remained for John M. Harlan, J. Mack Glenn and Andrew Russell and others to take the open field against the "trust managers." The Herald article reads like this:

I bumps into one of these drop-stitch conversationalists in the grill-room and he turns on the fan before I can even hang up my lid.

"The interstate commerce commission ought to investigate the Illinois presidential primaries April 11," says he.

"Backward, turn backward, 'O sport," says I. "Unravel it a bit—I don't seem to get the thread." "Sherman and his bunch, of course," says the drop-stitcher. "Haven't L. Y. and Homer Tice and Walter Rosenthal and Bill Colvin and George Keys got a close corporation on the primaries downstate? And as it's a matter of national delegates—national, mind you—I insist the interstate commerce commission ought to get after them for forming a combination in restraint of trade."

"You're wrong," says I. "Dead wrong! Restraint of trade, nothing! On the contrary, isn't this a combination to stimulate trading? Why d'ye suppose these favorite sons who haven't got a look-in are so crazy to cop vest-pocket delegation from their home states? They all want a fat stack of blue chips in their kick when the time comes for deals and trade and combinations—Isn't that the answer? They want a control in the trading."

"Well, they're trying to establish a monopoly, then," says the drop-stitcher, "and what I said still goes."

"Well," says I, "they haven't cornered the market yet. There's a bunch of trust busters on their trail. There's John M. Harlan and J. Mack Glenn and Andrew Russell, to say nothing of W. Scott Cowen—a quartet of trust busters with blood in their eyes. They're using the spur and riding with bloody bridles and—"

"Is Andy Russell trying to bust the Sherman combination?" asks Drop-Stitch. "I always thought the state treasurer was a conservative—he's a banker."

"Is he?" says I. "Why, Russell has put rubber shoes on his mustang and is gumshoeing over the Twentieth district with his sombrero flapping—a regular night rider. He is not spilling much language. He's thrifty with his speech as he is with his roll, for he believes a word to the wise is worth two in the bush. But, believe me, what he is saying couldn't be printed on anything but asbestos paper."

"Homer Tice started it," I goes on. "Homer is one of Sherman's inner circle. Strange to say, every one of the inner circle boys downstate has a fight on his hands, due to the way he has played the game."

"To get back to Homer, when the Sherman slate of delegates in the Jacksonville district was framed Andrew Russell, who is a candidate for governor, was excessively pained to note that his political bunch had been given the go-by."

"They slated Tice and Frank J. Heini for district delegates. Russell at once went up in the air to an altitude of approximately one mile above sea level. Heini, you see, is Russell's most cherished enemy. They have been opposed in politics and likewise are rivals in the banking business at Jacksonville. So Russell retaliated at once by joining the trust busters. He got up an opposition delegate slate in his district, with himself and Samuel O. Savage on it, and then put Ray N. Anderson up for state committeeman against Arthur French, the Tice-Sherman pick."

"Now Russell is fighting to clean up on all three places, put Homer on the hummer and bust the Sherman-Tice combination in his district."

"Some trust buster—a regular Bloody Bridles Russell."

## FISH CAR "ILLINOIS" IS TO BE CHRISTENED IN SPRINGFIELD

State Game and Fish Commission Wants Miss Mona Dunne to Break Bottle of Champagne on One of Car Couplings.

Springfield, Ill., March 16.—The fish car "Illinois," recently completed at the state fish hatchery at Havana, Ill., is to be christened here March 23 and it is the fervent prayer of the state game and fish commission that Miss Mona Dunne will consent to ruin a bottle of champagne on one of the car couplings.

"We are not going to insist that champagne be used—certainly water would be more appropriate for a fish car—but we want Miss Dunne to do the christening," said Commissioner Henry Von Meeten of Chicago here today.

"Father is out of town," said Miss Dunne, "and I think the decision rests with him." Miss Dunne indicated, however, that she would enjoy participation in the ceremony. The car is fitted up with tanks in such manner that fresh water is easily supplied without loss of fish. By means of the car fish can be transported from state fish hatcheries to barren streams and lakes.

PETRIE AND

## Rippling Rhymes

By WALT MASON

THE ANNUAL PAINTFEST

The time's at hand, O sons of toil, to buy eight quarts of linseed oil, and half a peck of lead and zinc, and paint the house that's on the blink. O, wield the brush with gladness shout, till painter's colic knocks you out. There's nothing sadder than a shack that's gone to ruin and to rack because the owner is too tight to buy some paint and make it bright. I buy some pigment every spring, and paint the smokehouse and the swing, and if no pigment is for sale, I buy some hogman with my kale, and paint the chimney, tall and broad, the cistern and the lightning rod. I buy shellac and turpentine and make the whole blamed diggings shine, and thus Iadden up the hearts of people in their choo-choo carts, who scorch along the dusty road, and rubber at my gray abode. "Gee whiz," they cry, "that old fat bard must buy his shoutment by the yard! A fine example he has set to all the world, already yet!"

## TROLLEY BENEFIT NETS LESS THAN COLLECTION IN 1914

No Compilation of Returns Made Last Night—Twenty-four Teams Work for Associated Charities.

The trolley day benefit for the Associated Charities will fail to reach the benefit of December, 1914, by twenty dollars or more, it was indicated last night at the close of the day's work of the young women of the twenty-four teams who served as conductors on the Jacksonville street railway. Reports made by teams throat the day ranged from three to eleven dollars. Full report of evening hour collections were not made to the committee.

The 1914 benefit was given two days before Christmas and was naturally aided much by the rush of holiday trade. Net receipts at that time were \$191.00, including a donation of twenty-five dollars from the company.

The general committee in charge of the benefit consisted of Mrs. E. P. Cleary, Miss Mary Wadsworth and Mrs. J. W. Brown, assisted by Miss Florence Loar, Miss Marian Fairbank, Mrs. W. H. H. King, F. J. Heint and L. O. Vaught. The traffic arrangements were made by P. E. Newell and Superintendent Otto H. Kuchman of the railway company.

The money was turned over at the end of each run to Frank J. Heint at the Farmers' State Bank & Trust Co. Hillerby's dry goods store, the Courier company, William G. Benson, Joseph Estaque, R. T. Cassell and Miss Alice N. Smith were mentioned by the committee as deserving special thanks for aid in promoting the benefit.

## WITH THE SICK.

John Cherry is able to be out again after a severe illness. He is glad to be about tho he is still quite weak.

Mrs. D. M. Keating has returned from Winchester where she went to visit her father, the venerable William Woodall, who is very ill.

Miss Wilma DeSilva of the Woolworth 5 and 10 cent store is laid up with illness.

Mrs. Charles Teale of Waverly is a patient at Passavant hospital. She expects soon to undergo an operation.

Irene Tayman, daughter of Mr. and Mrs. John L. Tayman, is ill with pneumonia at Passavant hospital. Her condition yesterday showed marked improvement.

Mrs. Fred Benson, who has been suffering with erysipelas for the past three weeks, is now somewhat improved.

## MATRIMONIAL

**Leonard-Beauchamp.**  
Harry Leonard and Miss Della Beauchamp of the vicinity of Meredosia were united in marriage Wednesday evening at 7 o'clock at the Methodist parsonage in that city. Rev. T. L. Hancock officiating. The bride is the daughter of Mr. and Mrs. Charles Beauchamp living southeast of Meredosia and is a young woman of refinement and worth.

The groom is the son of Mr. and Mrs. Henry Leonard and is an industrious and upright young man.

The young couple have the best wishes of a host of friends for their future happiness.

They will begin housekeeping at once on the George Beauchamp farm southeast of Meredosia lately purchased by the groom.

## MORTUARY

**Olgin.**  
I. E. The Store With the Flag Sign.

# SIX OR SEVEN SOLDIERS SAID TO HAVE BEEN SHOT

(Continued from Page One.)

trable wall of secrecy surrounded to-night the movements of American troops beyond the Mexican border. So far as official Washington was advised the columns virtually might have vanished into thin air when they crossed the international boundary yesterday in pursuit of Villa. Even the commander in chief President Wilson, did not know where General Pershing's men were.

Secretary Baker received virtually no reports from General Funston dealing with events beyond the border. Late today he said he did not know where troops had proceeded southward from their first bivouac on Mexican soil last night. Not a single despatch from the border was made public during the day except one reporting the death of Lieutenant Zell, Eleventh Cavalry at the Columbus hospital where he took his own life in a fit of despondency.

**Believe Villa Far to the South.**  
Army officials were convinced that no important developments were to be expected for several days. It seemed plain from the day's accumulation of rumors that Villa was far to the south of his American pursuers.

The war department would not divulge any details of the number of troops across the border or of the regiments sent.

Press advices, however, showed that infantry accompanied the cavalry and artillery out of Columbus in the main column. That means slow progress across the desert. It will take days, it is said to cover the distance to Galeana the last town where Villa was reported unofficially to have been seen.

American consuls in Mexico so far have been able to give little aid to the troops, although all are on watch for information that might indicate the bandits' movements. Consular advices today continued to report generally quiet conditions.

## ORDER BATTLESHIPS TO VERA CRUZ.

Officials displayed some concern over the situation in the Tampico district, however, where there are signs of unrest. The battleship Kentucky was ordered back to Vera Cruz from New Orleans, Secretary Daniels explaining that navy vessels loaned to the Mexican coast did not have radio equipment powerful enough to insure uninterrupted communication with Washington.

With the Kentucky at Vera Cruz reports from smaller vessels along the coast can be relayed quickly to Key West and Arlington.

The state department denied that other American consuls than Consul Williams at Torreon were leaving their posts. Williams, they said, merely reported that he was leaving because of rumors. He did not specify the conditions which he viewed as alarming. One other consul at first reported he would leave but later changed his mind saying the situation had cleared.

No reply has yet come from General Carranza to the American note announcing the acceptance of his proposal for reciprocal action on the border. The fact that his troops evidently are co-operating with the American columns is viewed as enough in itself for the time being.

The international forces are forming a huge steel ring about the bandits' lair slowly closing in from all sides. Reports from the scores of recruiting agencies re-opened yesterday thruout the country began to filter into the war department today. They contained little definite information.

By the end of the week Adjutant General McCain expects to have figures available on the number of applicants who have been accepted. Not more than one man out of five usually passes.

## TO MUSTER IN ARMORED MOTOR BATTERY.

New York, Mar. 16.—The first armored motor battery to be organized in the United States will be mustered into the New York National Guard Saturday night it was announced today. The equipment will cost more than \$300,000. The funds were provided by several wealthy New York men.

There will be eight or ten cars in the battery with chassis built of thick armorplate steel, armed with revolving machine guns and propelled by high powered motors capable of driving the heavy trucks at a high speed. Most of the equipment has been completed.

# WABASH SECTION MEN AT DECATUR GO ON STRIKE

Officials 8 late Men on Springfield Division Will Not be Affected.

Decatur, Ill., Mar. 16.—More than a hundred section men on the Decatur division of the Wabash did not show up for work Thursday morning making good their threat to strike if they were refused a raise in pay. They asked for \$2 for ten hours a day instead of \$1.35 for 9 hours which they receive at present. The strike, according to the men is on all over the system.

## Not to Affect Springfield Division.

Springfield, Ill., Mar. 16.—Section men on the Springfield division of the Wabash railroad company will not be affected by the strike in force on the Decatur division, it was stated at the general offices here tonight.

## Will Have Only Local Effect.

St. Louis, Mo., Mar. 16.—E. F. Carney, General Manager of the Wabash tonight denied that the action of section men at Decatur in quitting

## SPECIAL TRAIN BEARS BODY.

Washington, Mar. 16.—A special train bearing the body of the late Senator Benjamin F. Shively of Indiana left Washington tonight for South Bend where funeral services will be held Saturday afternoon.

# RECEIVES UNOFFICIAL ADVICES CONCERNING REPORTED ATTACK

WASHINGTON, Mar. 16.—Only unofficial advices concerning the reported submarine attack on the liner Patria had reached the state department tonight but officials indicated that an investigation of the incident probably would be ordered tomorrow. The report said to have been forwarded from Lisbon is supposed to be coming by mail.

The captain of the Patria which is owned by the Fabre line gave out a statement in New York today saying that when his ship was off the Algerian coast March 1st, carrying among its passengers 29 Americans, a submarine attacked without warning and fired a torpedo missing the ship by only 30 feet.

Official information regarding the sinking of the Dutch Steamer Tubantia is lacking here, but judging from press dispatches officials believe the ship was sunk by a mine. An American consul named Schilling was reported aboard the Tubantia, but there is no one of that name or any similar name in the consular service.

work would have more than a local effect. "The section men are not organized," he said, "and the road can pay but little attention to the strike. We are raising our wage scale as rapidly as possible in all departments and the move at Decatur was unnecessary. As soon as circumstances permit section hands will be given an advance but this cannot be forced."

"As viewed in St. Louis, it would appear that the men had opportunity to get better places due to the present great industrial prosperity. The strike will have no effect upon any other department."

## TENDER IS SWAMPED.

Prince Rupert, B. C., Mar. 16.—The Pacific-American Canning company tender Alpha which left Bellingham on Sunday for Alaska was swamped off Rachel Island near here this morning. All on board with the exception of a deck hand named Christiansen are believed to have perished.

Besides Christiansen there were seven men on the Alpha.

## TO RECRUIT ARTILLERY TO GREATER STRENGTH

Des Moines, Iowa, March 16.—Adjutant General Logan announced today that the field artillery companies of the Iowa National Guard would be recruited to greater strength than at present. He said more attention would be devoted to the artillery branch as it was believed that artillery would be needed first in case of emergency.

## JURY DISAGREES.

Danville, Ill., Mar. 16.—After deliberating more than 24 hours, a jury in the Federal court which heard the case against Dr. Logan Estes, of Mattoon, and J. C. Miller, of Neoga, Ill., charged with mail frauds failed to agree. The jury was discharged and the case will be retried at the September term of court. Both defendants are at liberty on bail of \$5,000 each.

# SET APRIL 3 FOR HEARING OF INJUNCTION SUIT AGAINST DUNNE

Case Will be Heard on a Demurrer Filed by Attorney General Lucey.

Springfield, Ill., Mar. 16.—State Representative William A. Hubbard's injunction suit against Governor Dunne, other state officials and members of the Illinois Deepwaterway commission to restrain any steps toward the construction of the proposed canal from Freeport to the Illinois river was set today for hearing on April 3rd, in the Sangamon county circuit court.

The case will be heard on a demurrer filed by Attorney General Lucey, one of the defendants, who charges that the complaining representative has not sufficient ground on which to bring the suit. Representative Hubbard filed the suit a short time ago charging that the act providing for the issuance of \$5,000,000 bonds to finance the project was not valid because the question of bonding the state had not been submitted to the vote of the people. The bill also asks restraint of payment of \$26,000 annually to the members of the waterway commission for their salaries. The federal government recently disapproved the Dunne waterway plan on the ground that tolls were to be charged, which would it was said, interfere with inter-state commerce.

## APPEAL FROM DECISION OF PUBLIC UTILITIES COMMISSION

SPRINGFIELD, Ill., Mar. 16.—J. W. Newcomb and August Schradler of Chicago today appealed to the circuit court of Sangamon county from the decision of the Illinois State Public Utilities commission, which denied their request to institute proceedings in Cook county. The contemplated action sought to restrain the Yellow Cab company of Chicago from operating without a certificate of necessity and convenience from the commission.

The commission held that the defendant company could not be classified as a common carrier because its conveyances were not operating between fixed points.

## OFFICIALS CLAIM TO HAVE UNCOVERED BIG DRUG THEFT

Detroit, Mich., Mar. 16.—In the arrest of Emil West an employee of a local wholesale drug concern and a raid on his rooms today, federal officials claim to have uncovered one of the biggest habit-forming drug thefts they have ever known. In the rooms they declared two suit cases filled with drugs were found. The officials said the drugs were stolen from West's employers. They placed the wholesale value of the seizure at \$50,000 but said it could be retailed among drug users for fully \$200,000.

## RECEIVE STOLEN GOLD NOTE.

New York, Mar. 16.—A United States government \$10,000 gold note one of twenty of the same denomination stolen from the mail in September, 1912, while on the way to New York from Havana, Cuba, was received by a bank in this city today from Madrid, Spain. It was sent by registered mail by the American bank of Spain with the request that it be placed to the credit of that institution. It was the ninth of the stolen notes to re-appear since the theft. No information was available as to how the note reached the Madrid bank.

# BABY OF MRS. MAUD WRIGHT ARRIVES SAFELY IN JUAREZ

EL PASO, Texas, Mar. 16.—The baby of Mrs. Maud Hawk Wright arrived safely in Juarez today, an interesting example of the respect for childhood which even the Villa bandits showed when they captured Mrs. Wright. After her husband had been slain at Pachuca, Mexico, before the Columbus raid, Mrs. Wright's baby was literally torn from her arms. But the bandits treated it tenderly and gave it to a Mexican family which in turn delivered the child into the keeping of some of the Mormon colonists about Casas Grandes. Mrs. Wright escaping from the bandits after the Columbus raid has been here for a week awaiting the baby's arrival.

## PRISONER REVEALS VILLA'S PLANS AND WHEREABOUTS

DOUGLAS, Ariz., Mar. 16.—General P. Elias Calles, military governor of Sonora reported to General Alvaro Obregon, Mexican war minister today the capture of a prisoner who revealed Villa's plans and whereabouts. Copies of this report, General Calles said, were forwarded to General Gaviro by him and to the United States army officers at Columbus. The man was captured at Dos Cabozos and was in the attacks on Columbus, Calles said and added: "He informs me that Villa after the attack went direct to the Carrizito ranch where he murdered seven cowboys because they refused to give him horses. From Carrizito he went to Chocolate where he stopped on the thirteenth. From there he went direct to Galeana."

## CAVALRY OFFICER SUICIDES.

San Antonio, Tex., March 16.—Word was received of the suicide of First Lieutenant Edward M. Zell, Eleventh Cavalry, at Columbus, N. M., early today. His regiment was a member of General Pershing's command. Melancholia is given as the cause.

Zell was famous at West Point as a star member of the baseball and football teams.

## FORFEITS WRESTLING MATCH.

Springfield, Ill., Mar. 16.—Ben Reubens of Chicago forfeited his match here tonight with Johnny Meyers of Sheboygan, Wis., after an hour and thirty two minutes of wrestling. Reubens was injured a week ago blamed a sprained ligament for his failure to continue with the match.

## CHANGE IN C. & A. OFFICIALS.

Bloomington, Ill., Mar. 16.—The following appointments on the Chicago & Alton railway were announced today:

# JACKSONVILLE Y. M. C. A. WINS IN HANNIBAL TOURNAMENT

That the business and professional men of Jacksonville Y. M. C. A. understand how to play fast volley ball was well demonstrated Thursday afternoon and evening at the volley ball tournament held under auspices of the Y. M. C. A. of Hannibal.

Jacksonville defeated Quincy in two games, 21-8 and 21-9. These games over, the team trounced Hannibal in two more by a score of 21-14 and 21-17.

The Jacksonville team was accompanied by H. A. Brewer and the players were: R. Y. Rowe, Walter Bellatti, A. Hopper, Marcy Osborne, Wilfred Ayers, Leo Cooney, E. M. Johnson and A. C. Metcalf.

At 6 o'clock a banquet was served by the Hannibal men to the visiting teams. The Rev. W. L. Dorgan and Mrs. Dorgan were in general charge of preparations for the banquet, which was enjoyed to the utmost by each man present. Rev. Mr. Dorgan made a very pleasing talk, taking as his theme, "Why We Invited You." Rev. Mr. Druecy of Quincy made fitting response with "Why We Came." "Is it Worth While for Business Men to Take Time to Play Volley Ball?" was the subject of a short talk by Albert C. Metcalf.

After the banquet the men returned to the gymnasium and prepared for the evening games. The Hannibal team trounced Quincy three straight games, finishing second place.

## FILES PROTEST AGAINST BRYAN'S NAME ON BALLOT

Lincoln, Neb., March 16.—R. Y. Whitted of Omaha today filed a protest with Secretary of State Pool against the appearance of the name of William Jennings Bryan on the Democratic primary ballot as a candidate at large for delegate to the St. Louis convention. Mr. Whitted charges that Mr. Bryan is not a Democrat and asked that a date be held for a hearing. The secretary of state will conduct a hearing Saturday.

## CONDITIONS AT ENSENADA NORMAL

San Diego, Calif., Mar. 16.—Normal conditions prevail at Ensenada, Lower Calif., and no basis was found for reports of impending trouble, according to Lieutenant Bernard O. Willis commander of the Torpedo Destroyer Stewart which returned here from Ensenada today.

Willis said that the report of movement of troops into Mexico in pursuit of Villa had been received at Ensenada without any excitement.

## The Money-Makers

Every school boy knows that wheat is one of life's biggest necessities. How many "grown-ups" know that the 1914 and 1915 wheat crops paid in full for many a South Dakota farm?

Of course it demands good yields of good wheat to do that sort of thing, but BROWN COUNTY LAND raises just that kind of wheat and lots of it.

That does NOT mean that wheat is the only money maker—Corn, Alfalfa, Dairying, Hogs, etc., are other products that pay—that are swelling their owners' bank funds.

BROWN COUNTY LAND could not pay much dividends if it cost as much as Illinois land. The fact is however, that we still are offering selected farms here for \$40 to \$90 per acre—land that produces every bit as much as Illinois land for less than one-half of Illinois prices. That's the secret of success in Brown County.

### WOMEN OF PIONEER DAYS LIVED WITHOUT MANY MODERN COMFORTS

Chapin Household Science Club Hears Paper by Mrs. Robert Clark on "Our Grandmothers and the Women of Today."

"Our Grandmothers and the Women of Today" was the subject of an interesting paper, read by Mrs. Robert Clark Wednesday afternoon at a meeting of the Household Science Club, entertained by Mrs. James Guinane at her home in Chapin.

Mrs. Clark called to mind many changes which have come about in the last fifty or sixty years, outlining old time customs and habits of daily life and concluding with a prophecy regarding the woman of tomorrow. Mrs. Clark's paper, which was especially well received, follows:

It seems very hard for me to understand or realize the condition of sixty, seventy and eighty years ago. Some idea of the geography of the State may be given when we remember that when my Grandmother was born in 1827, Illinois was but seven years old. When she was brought here by her parents, from the Old Country, ten years later, the country was in excitement over the removal of the Capital from Vandalia to some more central point. Jacksonville, the largest city in Central Illinois, had a good chance, but the "long nine" from Sangamon County, including Abraham Lincoln pulled the vote for Springfield, a village of 1500 with poorly constructed houses, no sidewalks, and often impossible muddy streets. Eight miles of railroad had been built from Mercedia and an locomotive had been received by water from Pittsburgh, so the people could see the cars run. Grandmother lived in Illinois since Chicago had 200 votes. In 1910 the population was 2,185,283. When many of us were children, we were playing with our dolls, jumping the rope or climbing trees or reading most of the time according to our temperament of the number of brothers we possessed.

Our Grandmothers were having to sew at six, making shirts for father and brothers, knitting, washing dishes and learning to spin. The home work had to be done in a hurry for everything was in one room. I don't imagine the girls linger for another nap when mother told them to get up and dress and make the beds before Pa and the boys got in from chores.

The school house was a good place away and the winters were hard, the roads were bad, and the drifts were deep when Grandmother could go to school, she was needed at home. She didn't get a higher education and not very much lower. Mother never told me whether she took music or dancing or gymnastics or domestic science.

#### An Old Time Scene.

I can see the picture now as she describes it as she and grandfather stood up before the circuit rider in the room in her home spun dress and everything around spotless clean. The best coverlets on gayest quilts on the beds; blazing logs in the fire place, and everything arranged. The wedding dinner, cooking, modesty and bashfulness and youth on the faces and hope and faithfulness in the heart. I don't know of any of those grandmother's whose marriages turned out badly. I don't know how many years it has been since I was in a "respectable" one room house, but I can imagine what an out I would make now trying to live in a one room house, and doing my work with the men shearing the sheep and sending away only for cording and binghome to be woven into blankets coverlets and cloth for clothing and towels. Be it known, there is one redeeming offset to all the above mentioned: the girls didn't have to possess but two dresses one for every day and one for Sunday, and on Saturday night when all was still and the kiddies were tucked into bed, their mother washed their woolen clothes, dried them by the fire ready to put on again Sunday morning. I asked a Kansas pioneer how she managed house cleaning. She was a mother of twelve children. She said she took a fair day for it, aired everything out, cleaned and whitewashed and put things back again. One or two of her brood died of diphtheria years ago. The rest have done well, the youngest was studying law at Chicago University. But how could she ever cook for a dozen by the fire place? Most of us might keep from starving if we couldn't have a variety.

We could boil beans or potatoes and make coffee and corn pone after a few trials but how about roasting a turkey for Christmas or baking a white bread or for an instance an Angle Food cake? Our grandmothers found time for out door work to raise poultry, picking geese, making soap, lye hominy, planting garden and even taking the children to the corn fields to drop corn, for in those days the sound of the planter was not heard in the land. Our grandmothers were better than we generally speak, for with easier ways, we have grown to require less obedience, less respect,

#### Grandmother's Amusements.

The sons and daughters of the pioneers worked, but there was an occasional log rolling, barn raising, husking bee, singing school, and some times the dance or hoe down, as the unsympathetic called it. But perhaps the one most interesting event and the one thing which helped those people most, must have been "the big meeting" when our parents got religion. "Happy Day."

In our Grandmothers' days one could travel a long ways and never find a piano, nor even a parlor organ, once and a while you might run across a melodeon. There were no sewing machines. You would have seen no newspapers, no telephones, no electric or acetylene lights, and no kerosene lamps, only

candles, matches were expensive; a calico dress was a luxury.

There were no phonographs, no piano players, no picture show, no autos, no trips to the world fair, When Grandmother went to see her neighbors she rode the saddle horse, one child holding on behind, another in her lap. There were no aeroplanes, no chautauqua assembly, no home comings.

Well, what did they have for amusements for women of 50 and 60 years ago; they were too busy to be interested in circuses.

They had their neighbors. A neighbor meant something in those days. When the Doctor was far away and trained nurses were not there, there were the old folks at home, yet when these modern improvements were brought into action, our grandmothers gracefully accepted them. Our Grandmothers who are living today are helping to drive out the saloon; elect clean city officers; and Providence permitting, this year will vote for the nation.

Grandmothers are no longer delegated to wear doll collars and bonnets. You cannot always tell now who shall wear a costume by the style or mode. Have women changed? Well perhaps our boundaries have. We are no longer politically ranked with the insane and feeble minded. Times have changed for the better? Who can tell? Are women less true? Is mother love less deep now than years ago.

#### The Woman of Tomorrow.

Women are in everything today. Where will they be tomorrow? How will the new privileges effect us. How many will fall by the way, too weak to keep the pace? We must look the future in the face, the very near future, for events are crowding each other. Even the seasons seem to be rushing more swiftly than in the past.

What is the future of the women? The house of life has many a door. That leads to many a room. And only they who look before Shall win from out it's gloom.

Who stand and sigh and look behind, Regretful of past years. No room of all those rooms shall find, That is not filled with tears.

'Tis better not to stop or stray, But set all fear aside. Fling wide the door, what e'er the way, And enter at a stride.

Who dares, May win to his desire, Or failing, reaches the tower.

Where on Life lights the beacon fire Of an immortal hour.

### WILSON'S MERCY PREVENTS WASHINGTON HANGING

Washington, Mar. 16.—The hanging of Arthur Jones, colored, will not take place here tomorrow. Instead of going to the gallows for the murder of two people during a row a year ago last May, Jones is to be a prisoner at Atlanta for life. President Wilson stepped in and granted commutation, on recommendation of Attorney General Gregory, and the carrying out of capital punishment in the Capital City was avoided.

Jones killed Mary Hamilton and her husband, Sandy Hamilton, on Saturday night, May 1, 1915. The evidence before the court showed that Jones had resented Mary's marriage to his rival. On the evening of the murder, he went to her home, where a number of colored people were gathered. He had been drinking. He tried to induce the Hamilton woman to go outside and talk with him, but she declined to do so, asking him to sit in a room in the back of the house. While he was there, he was in darkness. The prosecution charged that without warning Jones began shooting into the next room, where Hamilton and his wife and the others were assembled, and that he deliberately killed the woman and her husband. Officials of the Department of Justice investigated the testimony and conferred with the court officials recently, and they took the ground that Jones, an ignorant but hard-working negro, really believed his life was in danger when he fired the fatal shots, and that there was sufficient doubt to warrant the commutation of death sentence.

### OBITUARY SKETCH OF THE LATE SAMUEL JUMPER

Samuel Jumper, son of Abraham and Catherine Jumper, was born in Richland county, Ohio, in 1832, and died at his home near Sinclair March 11, 1916, being eighty-four years old. When less than a year old he came to Illinois with his parents, living first in Union county and later coming to Morgan county, where he has spent most of his life. Mr. Jumper was married in 1858 to Miss Martha M. L. Spaulding, who preceded him in death by nine years. He joined the Methodist church at the age of fifteen years and has been a faithful Christian from boyhood. For some years he served as a local preacher, discharging his pastoral duties very efficiently.

Mr. Jumper was the last but one of a family of ten children. His own children surviving are: Harriet M. L. Jumper, William, H. A. and S. M. Jumper, and Sarah E. Jumper, residing at home; E. G. and J. A. Jumper of Garden Grove, Iowa. Three children born to Mr. and Mrs. Jumper died in early life. The remains one grandchild, Mrs. Daniel Ward, and one great grandchild, Esther Marie Ward. One brother, the last of the family, lives at Waintonville and he was in such feeble health that he was not able to attend the funeral services.

Mr. Jumper enlisted in the army

### FILING COMPLAINTS

"You ran into my cow with your old tin automobile last evening," said Pengelly, "and the veterinary surgeon says she's a total loss. She'll never be the same cow again. So I come over, in a neighborly way, to ask what you are going to do about it. I don't want to invoke the law, if you are willing to make a reasonable settlement."

"You are welcome to invoke the law, if you feel that way," replied Gangling. "I'd like nothing better than to have this matter thrashed out in court. I was just going over to your place, to ask you, in a polite and friendly manner, if you are willing to make good the damage to my automobile, and here you are, talking as tho you were the injured party."

"Your old splay-footed cow has been a public nuisance for a long time. Every motorist in town has had it in for her. She's always loafing around in the road, waiting for a chance to wreck automobiles. She hides in weeds by the side of the road, and when a car comes along she jumps out and manages to get herself run over. She has knocked pieces out of a dozen cars and ruined fenders and busted lamps, and yet you thank you have a grievance."

"You have gone to a whole lot of trouble training your livestock to menace the lives and property of automobile owners. Your chickens are always standing around in the road, and they won't move out of the

way. I have run over a lot of them, and then had to get out of my car and scrape them off the wheels. The United States Bureau of Animal Industry has issued a brochure saying there is nothing worse for rubber tires than the insides of chickens, and I have noticed that my tires always collapse a few days after I have run over one of your yellow roosters. It ceases to be humorous when a man has to buy new tires every few months, because you won't keep your chickens off the right of way."

"Yet I suppose you will have the gall to come around one of these days, hinting that I ought to pay for the old hens and roosters that run under my automobile, and plaster their viscera on the wheels."

"Then you have a great Dane dog, about the size of a load of hay, and every time I go past your place the brute runs out and tries to bite a chunk out of the radiator of my car. He'll run along in front of the car for five or six miles, and one of these days I'll be obliged to run over him, and that will dislocate a lot of the fine mechanism and perhaps kill the engine. It is impossible to run over a dog as large as yours, without damaging a car, but when the catastrophe happens, I reckon you'll insist that I ought to pay for the dog, instead of coming here like a man, and offering to write a check for the damage to the car."

### CHARITY CONFERENCE TO BE HELD IN SPRINGFIELD

Program Will Present Various Phases of Social Service Work.

The first Sangamon county conference of charities will be held for three days in Springfield beginning today. The meetings will be held under the direction of the central conference of social agency, which was recently formed on a recommendation made in the Springfield survey report on charities. It is the purpose to present to the people the exact facts with reference to Springfield and Sangamon county charities and social welfare organizations. Francis H. McLain, who made the survey of the Springfield charitable

agencies and institutions is to appear on the program and discuss the subjects which may be brought to attention. The program tonight will include a discussion of general topics. Saturday afternoon the committee on "The needy family" will make a report, and Saturday evening the committee on health will be heard from. Sunday afternoon "Child Welfare" will be the subject. Springfield people who have taken special interest in welfare subjects will speak and there will be a number of prominent state workers present.

John A. Shadid is now fixed in his new quarters at 206 East State street and is well pleased with the room he has leased.

### NINE DEMOCRATS SEEK MISSOURI GOVERNORSHIP

St. Louis, Mar. 16.—Nine prominent Missouri Democrats have aspirations for the governorship this year, and they have launched their campaign for the Democratic nomination. The most recent aspirant to fling his cap into the ring is U. S. District Attorney Francis M. Wilson of Kansas City, who is said to have the backing of Senators Stone and Reed. Another strong candidate is Fred D. Gardner of this city, a member of the Board of Freeholders which framed the new charter of St. Louis, and the father of a land bank bill which provides a state bank from which farmers can borrow money at low rates. The other candidates are: Secretary of State Cornelius

Roach, Atty.-General John T. Barker, Lieut. Governor William R. Painter, U. S. Sub-treasurer Vandiver, James A. Houchin of Jefferson City, Rev. Arthur Lindsay of Clinton, and Chairman John M. Atkinson of the State Public Service Commission.

### CONSERVATORY NOTES.

The Advanced pupils' recital which was to have been given at Academy hall this evening has been postponed until the week of March 27.

From the Educator's Notebook.

Minneapolis—A study of the Gary system of schools has been conducted by a committee of Minnesota educators, and some interesting conclusions have been reached by the investigators. The committee visited Troy, N. Y., New York City, Passaic, N. J., and the city of Gary itself, and found enthusiasm over the results in all of these cities. There are many points in the Gary system that are highly endorsed by the committee. However, the Minneapolis educators reach this conclusion: "The double use of the school plant can only be effected at a loss in educational efficiency—distinct loss to the child in spending time in activities lacking in their educative content, in being taught by overworked teachers and in lack of aim and direction in their work. We believe that many of the best ideas of the Gary plan are now in use in Minneapolis. We believe in greater freedom and spontaneity on the part of pupils, but are convinced that these unrestrained will lead to lessened respect for law and the development of those personal qualities which do not make for thoughtfulness, order and good citizenship."

Cambridge, Mass.—Dr. Ernesto Quesada of Buenos Aires, Argentina, has accepted the newly-created chair of Latin American history and economics at Harvard. Dr. Quesada is attorney general of Buenos Aires, is professor of sociology at the University there, and is political economy professor at the University of La Plata. He was to have gone to Berlin as exchange professor, but the way prevented his acceptance of that post. He has written extensively, and has been honored by learned societies of many countries. The coming of Dr. Quesada next September is one of the important movements to bind the American Republics more closely together for mutual welfare.

Daytona, Fla.—A campaign of education undertaken by a colored woman under the most crude conditions has developed into the Industrial Training School for Negro Girls in this city. Mrs. Mary McLeod Bethune, the founder of the school, came here with a dollar and a half in her pocket less than five years ago. She rented a shanty and made school benches out of soap boxes. Her pupils were five little girls, whom she was going to inspire with the idea of the dignity of labor. The

**SUGGESTION TO WOMEN****Who Are "Just Ready to Drop."**

When you are "just ready to drop," when you feel so weak that you can hardly drag yourself about and because you have not slept well, you get up as tired-out next morning as when you went to bed, you need help. You can get it just as Mrs. Maxwell did. She says:—

"I keep house for my little family of three, and became completely run-down. I was weak, nervous and could not sleep; finally I was unable to do my housework. A friend asked me to try Vinol. I did so and improved rapidly. It toned up my system, I regained my strength, am no longer nervous, sleep well, and do all my housework." Mrs. J. C. Maxwell, Montgomery, Ala.

There is no secret about Vinol. It owes its success to the medicinal extractive of fresh cod livers, tonic iron and beef peptone, the oldest and most famous body-building and strength-creating tonics. So many letters like the above are continually coming to our attention, that we freely offer to return the money paid for Vinol in every case where it fails to give satisfaction. Lee P. Alcott, Druggist, Jacksonville, Ill. Adv.

**For the Family  
Medicine Chest**

Green Bay, Wis., Mrs. Wm. F. Bubolz says: "I always use Foley's Honey and Tar for our children as it quickly breaks up their colds with no bad after effects, and they like to take it."

In this season of coughs, colds and croup, every family medicine chest should be supplied with a good cough medicine that can be relied upon when needed.

Such a family cough syrup is Foley's Honey and Tar Compound. This standard medicine has been on the market for years and in many sections was found in every home in the days when doctors were not so handy and when money was scarce. Foley's Honey and Tar Compound is an excellent medicine for coughs, colds, croup or inflamed throat, hoarseness, tightness and soreness of the chest, croup and whooping cough. It is an absolutely safe remedy, containing only healing ingredients, and free from any harmful drugs.

whites opposed her work, fearing she was a trouble maker, and the negroes thought the school was to force them into degrading labor. But Mrs. Bethune overcame prejudice, obtained the interest of wealthy vacationists, and made a success of her venture. She has cleaned up the infamous "turpentine camps," and her girls are remaking good in all lines of work. The spirit of efficiency is instilled into her pupils, and they are shown the practical art while imbibing the rudiments of education. This brave colored woman has made a record of which Floridians are proud.

New York—A great deal of discussion has followed the removal from the auditorium of the Washington Irving High School of the famous painting "Am I my Brother's Keeper," which won a medal in the Royal Academy at London and was presented to the people of New York by the British Education Commission in 1911. The picture has hung in the school ever since it arrived, but now it is declared to be degenerate in character and might have a morbid and depressing effect on the 5,000 girl students. The painting represents a group of homeless, poverty-stricken people, women with her baby, a discharged soldier and out-cast wanderers sleeping on a bench on the Thames embankment. In the background are the brilliant lights of the city. The removal of the painting has aroused a storm among artists and educators, who resent the action of the school principal.

Washington, D. C.—Arrangement for the annual meeting of the Southern Industrial Education Association to be held here on Thursday, have been completed. C. C. Calhoun, vice-president of the association, will deliver an address on conditions in the Southern mountain sections. **LABOR LEGISLATION OF 1915**

The annual summary of labor legislation in the United States, published by the U. S. bureau of labor statistics of the department of labor, which appears as its Bulletin 186, covers the activities in this field during 1915, of 45 states, two territories and the federal congress. With three exceptions, Kentucky, Maryland and Mississippi, every state in the Union held a legislative session, regular or extra, in 1915, and of these, all but two, Louisiana and Virginia, enacted laws of special interest to labor. The bureau's report reproduces the text of all these laws and presents a concise review of each class of legislation. The workmen's compensation laws are omitted, having been published separately in the bureau's recently issued Bulletin 185.

Aside from the enactment of workmen's compensation laws, perhaps the most significant feature of the legislation of the year is the growth of the industrial commission plan, uniting in one authority the administration of workmen's compensation, factory inspection and other labor laws. This plan was adopted in 1915, in Colorado, Indiana, Montana, Nevada, and New York.

Especially notable in the legislation of the year was the attention given to the subject of unemployment and public employment offices. In Illinois a commission of unemployment, consisting of three representatives of labor, three of employers, and three of the public, was established to report at the next legislative session. In connection with the state employment offices, a general advisory board was established to investigate and deal with unemployment. California and Nevada passed resolutions calling for investigation of unemployment. In Idaho emergency employment is to be provided by county boards of commissioners for unemployed citizens of the United States who have been six months residents of the state. Employment is to be on the highways at rates to be fixed by the county boards, not more than 30 days' work of this kind to be furnished any person within one year. One-half of the expense is to be borne by the state, and refusal to perform the work assigned debars one from this form of relief for the period of one year.

Public employment offices were provided for in California, Idaho, Iowa, New Jersey and Pennsylvania, and provision was made for the extension of the system of public employment offices in Illinois, Michigan and Oklahoma. The licensing and supervision of private employment offices were provided for in seven states, Colorado, Nebraska, Oregon, Pennsylvania, Rhode Island, Texas and Wisconsin, while Idaho prohibited the maintenance of private employment agencies operated for profit.

Washington, Mar. 16.—The whole question of the relations between the United States and Canadian governments in the control of immigration is being investigated by a committee of the immigration service, and Secretary of Labor Wilson is awaiting the report. Agreements respecting the admission of Chinese to each country through the other are receiving special attention. Most of the immigration agreements between the two countries are unofficial, and while the subject is being considered it is possible that the suggestion of new and more authoritative agreements will be made.

Amazing but Rarely Suspected Truths About the Things You Eat.

(Copyright, 1916, by Alfred W. McCann.)

**CHAPTER 32.**

The evils of constipation, ignored by the false and dangerous attitude of the public, are due to the modern system of denaturing the most important natural products of the nation's food supply.

The world little suspects the gravity of constipation, or the readiness with which it submits to correction. Even the physician needs to be reminded of the serious nature of this preventable and entirely unnecessary evil.

Listen to what Drs. John H. Musser and George Morris Piersol of the University of Pennsylvania have to say to their brother physicians throughout the United States if you would begin to appreciate the folly of looking upon constipation as a trifling disease. Here are the words:—

"No clinical symptom is more frequently encountered in the practice of medicine than constipation. Its commonplace and obstinate character of the affection is perhaps responsible for the prevalence of the idea that constipation is a necessary evil rarely capable of permanent cure."

"As a result of this false and dangerous attitude the people are prone to look upon the condition with indifference, which allows them to be content with a certain degree of temporary relief, too often brought about by the easiest means at their disposal, namely, the use of purgative drugs."

"This attitude is not only erroneous it is harmful. Constipation is but a symptomatic disorder, and any treatment to be efficient must be directed, not to the temporary removal of the symptom, but at the cause."

"Dietic errors are among the most frequent general causes of constipation. These consist in food which is deficient in residue (bran) by reason of the mechanical and chemical stimuli necessary to promote proper intestinal activity."

"A diet suitable for constipation must be one which will furnish adequate stimuli to the intestinal mucosa by means of undeposited residue and the various chemical substances elaborated during its digestion."

Do these words of Drs. Musser and Piersol, directed in such serious manner to the medical profession, clash with the philosophy of ridicule preached by the millers? To the victims of constipation who are so easily influenced by plausible assertions, I leave the answer.

"Be careful," say the millers, "on your journey, John, not to eat any white bread. If you do your teeth will fall out. Be sure somewhere to get a spoonful of bran in your grub or you will become a victim of the Philippine itch. Keep a sharp lookout for that brown, brindled, spotted rough stuff known as whole wheat bread or you will surely perish."

In the face of this sort of attack, aimed at the weakness of human nature to withstand the assaults of scorn or ridicule, however far-fetched.

Ladies of Christian Church Served Fine Menu—Household Science Club in Regular Meeting—News Notes.

Manchester, Illinois, March 16.—Miss Mabel Garvin went to Jacksonville Wednesday afternoon for a brief stay with her uncle and family.

Mrs. Jennie Kelley of White Hall visited her mother, Mrs. Mary Sloan this week.

Mrs. Guy Brown is visiting relatives in Winchester this week.

John Seal was in town Thursday.

Wiley Goacher and Lee Spencer, both remain very poorly, making very little improvement in health.

Miss Jessie Small of Des Plaines, Ill., arrived Wednesday night to visit Miss Mary Cooper.

Ollie Rimbey and family are home from Oklahoma, where they have spent the past three months.

Mrs. N. J. R. Rochester and daughter Neva returned home from Nortonville Wednesday night.

The regular Household Science club met with Mrs. Claude Heaton, Wednesday afternoon.

The members of the Christian church served an elegant three course banquet Wednesday night at 7 p. m. in the Weis Hall, to the members of the local basketball team their manager C. L. Lettze and their coach, S. T. Wallace of Roodhouse and other invited friends. Seventy plates were served.

During the banquet a musical entertainment was rendered by Miss Griffith of Roodhouse, following this addresses by Elder White, Coach Wallace and Prin. Lettze were enjoyed. The ball team gave a number of interesting class yells which added to the interest.

In all, the affair was a grand success. It was promoted and financed by a number of our interested citizens.

The Ladies of the Christian church were highly honored by those attending, who pronounced the banquet one of great importance.

**SPORT NOTES**

This week's big boxing mill is at St. Paul, where Mike Gibbons meets Jeff Smith on Friday night. Smith is the fellow who whipped Les Darcy, the Australian wonder, and he is expected to give Mike a better argument than Young Ahearn brought out to Minnesota.

Charles Ellis, the new three-cushion cue champion, must answer many knocks on the door without delay. Early in April he must defend his title against August Kleckhefer, the Chicagoan, and if he still holds the title he must go against Haapome. And he must go strong, for of the five defeats he has suffered this season, the Chicagoan administered one and the St. Louis player three.

The fight champs are gathering in high numbers in New York, and there will be some mighty swinging for championship stakes on the evening before the Jig Willard-Moran bout. Freddie Welsh is matched with Young Brown, Johnny Kilbane promises to meet Harry Donohue of Peoria, and Joanny Ertle is booked with Mickey Dunn.

The Pacific Coast has sent two basketball teams to the national championship tournament which opens today in Chicago. The Olympic quintet which won the championship last year will defend its crown. The Oakland team which came east with them is also fast, and was the runner-up last year.

Track athletics is resumed between Cornell and Michigan, and the relay teams from these universities will compete in the two-mile event at Buffalo next Saturday. Princeton, Lehigh, Columbia, Pennsylvania and Cornell will take part in the intercollegiate wrestling tournament which will take place Friday and Saturday at the Princeton gym.

Mexico City, Mar. 15.—Ten thousand civilians including government employees and school teachers paraded the principal avenues this afternoon carrying the national colors and banners bearing the inscription: "Homage to Venustiano Carranza, The Savior of his country's honor."

**Tooth Loose?  
Watch out for Pyorrhea!**

When you find a tooth that gives back and forth even just a little, see your dentist at once

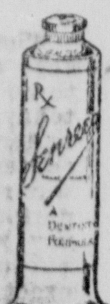

He will find conditions which you might overlook. He will find a gum recession, even though slight, where the gums have pulled away from the teeth. And he will tell you that you have the dread disease pyorrhea.

From pyorrhea come by far the greater part of all tooth troubles. Unless treated and checked, it will result not only in the shrinking and malformation of your gums and of the bony structure into which your teeth are set, but in the loss of the teeth themselves.

A specific for pyorrhea has been discovered recently by dental science, and is now offered for daily treatment in Senreco Tooth Paste. Senreco combats the germ of the disease. Its regular use insures your teeth against the attack or further progress of pyorrhea.

But Senreco does more. It cleanses the teeth delightfully. It gives them a whiteness distinctive of Senreco alone. Its flavor is entirely pleasing, and it leaves in the mouth a wonderful sense of coolness and wholesomeness.

Start the Senreco treatment before pyorrhea grips you for good. Details in folder with every tube. A two-ounce tube for 25c is sufficient for 6 weeks' daily treatment. Get Senreco of your druggist today, or send 4c in stamps or coin for sample tube and folder. Address The Senreco Remedies Company 503 Union Central Building, Cincinnati, Ohio.

## FEEDING HOGS FOR PROFIT

By JOHN M. EVVARD

Assistant chief in Animal Husbandry  
Iowa Experiment Station.  
(Courtesy Morris & Co.)

(Continued from Tuesday.)

Man himself is a self-fed animal; this has been true since the average man's earliest recollection. You have made the "Dairy Lunch" or the "Cafeteria" System of Eating popular by your patronage simply because it was efficient in administering to your needs. You have believed soup to be an appetizer, and uniformly eat it at the beginning of a meal, and science has shown that you are largely right in this. Disregarding expense you prefer the a la carte method to table d'hôte because in the former you choose, and in the latter you do not. You do not relish hash even as a side-dish ordinarily, hence why should you expect swine to relish it as the one and only dish?

Eight months, four days old pigs fed in dry lot weighed 316 pounds at times in the fall of 1915. The following feeds were placed before these pigs shortly after they were weaned, and when they weighed about 45 pounds on the average:

Shelled corn.  
Meat meal (30 per cent protein) tankage.  
Whole oats.  
Lard oil meal.  
Maple wood charcoal.  
Finely ground limestone (such as is spread upon the land to correct acidity of the soil).  
Common rock salt.

Water.  
These pigs were fed according to the "Iowa System of Self-Feeding Swine," showing quite clearly the possibility of this method of feeding

fed pigs during the 162 days of feeding is presented:

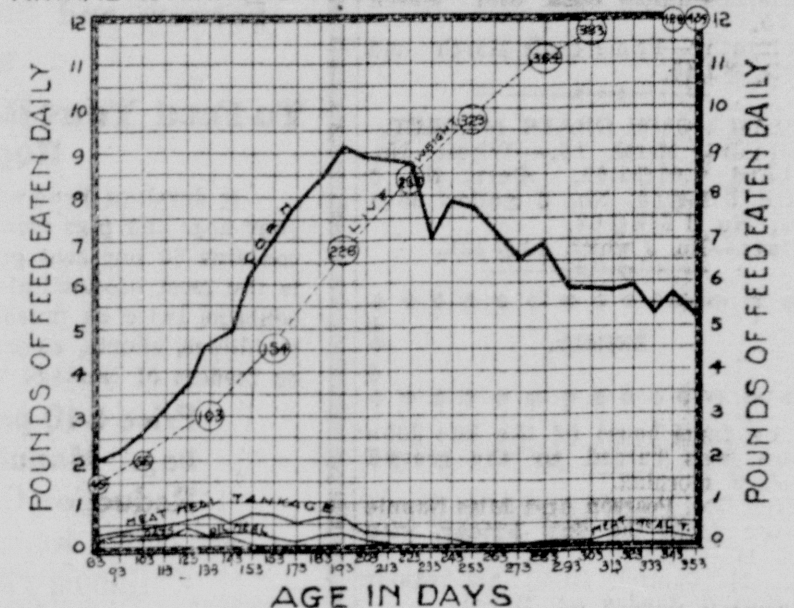

The important consideration is that after all is said and done, the forage fed pigs produced gains at the least cost. When corn costs 60 cents the gains here cost \$4.42 a hundred pounds as compared to the cheapest gains produced in dry lots; namely, \$4.73, this being where the pigs received corn, meat meal and oats in addition to the mineral feeds. Here is a difference of 31 cents in cost of gain in favor of forage over dry lot methods. Of course the alfalfa was charged at only \$10.75 an acre which may be not enough under some local conditions. Where hay is exceptionally high in price a higher cash value is attributed to said alfalfa. However, as much as \$11.44 could have been paid for this alfalfa acre, and still produce gains at the same cost as the best dry lot or \$4.73 a hundred pounds. Really this would mean, therefore, that pasture is superior to dry lot feeding. Under the conditions given alfalfa would be worth to hog feeding purposes \$11.44 an acre.

When it comes to the production of gains at the same cost, putting all of the profits upon the corn, hogs selling at \$6.00, we have returned for a bushel ranging from 74.9 cents to 78.8 cents in dry lot as compared to the somewhat greater return of \$1.6 cents on the forage of alfalfa—but in all cases the pigs grew up under the "Iowa System of Self-Feeding Swine,"—a free choice system.

Now the manner in which pigs choose their feeds from about the

in dry lot. The figures on these groups are given to arouse you to the fact that the appetite of pigs should be catered to if greatest gains are to be secured. Of course the economy of gains is an important consideration, but nevertheless when we understand clearly that the appetite is a guide as regards the physiologic needs of pigs then we will have a basis upon which to build for more economic gains.

A comparison of three dry lot "Iowa System" groups with pigs self-fed corn and salt upon most excellent alfalfa pasture is typically suggestive of the great possibilities which lie in judicious and economic use of forages for swine. These forage-fed pigs were fed according to the Iowa System, being given all of the corn they could possibly eat, night and day, together with salt at free will on luxuriant green alfalfa pasture until November 24; when after a period of 110 days of feeding they were placed in dry lot (the forage being gone) and fed corn in one self feeder, meat meal in another, with salt continued as before.

The entire record of the "Free Will" dry-fed pigs and the pasture-

to exceed five dollars at any time. The increased internal fat evidently crowds the stomach and intestines so that it is impossible for the very fat hog to eat as much when he weighs 400 pounds as when he was a 200-pounder. Peculiarly enough the meat meal tankage curves show a marked decline after the hogs are 193 days of age until about the 233rd day when the consumption of tankage is reduced to a minimum; at this time the tankage approximates about one per cent of the ration as compared to approximately twenty per cent early in the feeding and growing game.

As the swine grew and developed the proportion of tankage in the general ration gradually lessened, which lessening is most to be expected judging from our practical experience in the feeding and fattening of pigs taken from the time of weaning to maturity. The appetite of swine for the oil meal and the oats was much less than for corn and meat product. After the pigs were five months of age the oats were practically avoided, and the oil meal after the seventh month was reached. Surely the pigs seemed to do a good job at balancing their ration. This is evident from the weights secured at the various ages, phenomenal that they are. Give the pigs the credit they deserve it. Give the hogs a chance and they surprise the most sanguine.

## 'TIZ' PUTS JOY IN SORE, ACHING FEET

"My, how 'Tiz' gladdens tired swollen, burning feet— It's glorious!"

"How 'Tiz' does help sore feet."

Ah! what relief. No more tired feet; no more burning feet; no more swollen, aching, tender, sweaty feet. No more soreness in corns, callouses, bunions.

No matter what ails your feet or what under the sun you've tried without getting relief, just use "Tiz." "Tiz" is the only remedy that draws out all the poisonous exudations which puff up the feet. "Tiz" cures your foot trouble so you'll never limp or draw up your face in pain. Your shoes won't seem tight and your feet will never hurt or get sore and swollen. Think of it, no more foot misery, no more agony from corns, callouses or bunions.

Get a 25-cent box at any drug store or department store and get instant relief. Wear smaller shoes. Just once try "Tiz." Get a whole year's foot comfort for only 25 cents. Think of it. Adv.

## AH! BACKACHE GONE! RUB LUMBAGO AWAY

Rub Pain from back with small trial bottle of old "St. Jacob's Oil."

Ah! Pain is gone!

Quickly?—Yes. Almost instant relief from soreness, stiffness, lameness and pain follows a gentle rubbing with "St. Jacob's Oil."

Rub this soothing, penetrating oil right on your painful back, and like magic, relief comes. "St. Jacob's Oil" is a harmless backache, lumbago and sciatica cure which never disappoints and doesn't burn the skin.

Straighten up! Quit complaining! Stop those torturous "stitches." In a moment you will forget that you ever had a weak back, because it won't hurt or be stiff or lame. Don't suffer! Get a small trial bottle of old, honest "St. Jacob's Oil" from your druggist now and get this lasting relief. Adv.

## MOTHER! YOUR CHILD IS CROSS, FEVERISH, FROM CONSTIPATION

If tongue is coated, breath bad, stomach sour, clean liver and bowels.

Give "California Syrup of Figs" at once a teaspoonful today often saves a sick child tomorrow.

If your little one is out-of-sorts, half sick, isn't resting, eating and acting naturally—look, Mother! see if tongue is coated. This is a sure sign that its little stomach, liver and bowels are clogged with waste.

When cross, irritable, feverish, stomach sour, breath bad or has stomach-ache, diarrhoea, sore throat, full of cold, give a teaspoonful of "California Syrup of Figs," and in a few hours all the constipated poison, undigested food and sour bile gently moves out of its little bowels without gripping, and you have a well playful child again.

Mothers can rest easy after giving this harmless "fruit laxative," because it never fails to cleanse the little one's liver and bowels and sweeten the stomach and they dearly love its pleasant taste. Full directions for babies, children of all ages and for grown-ups printed on each bottle.

Beware of counterfeit fig syrups. Ask your druggist for a 50-cent bottle of "California Syrup of Figs;" then see that it is made by the "California Fig Syrup Company."

## Try This If You Have Dandruff

There is one sure way that never fails to remove dandruff completely and that is to dissolve it. This destroys it entirely. To do this, just get about four ounces of plain, ordinary liquid arvon; apply it at night when retiring; use enough to moisten the scalp and rub it in gently with the finger tips.

By morning, most if not all of your dandruff will be gone, and three or four more applications will completely dissolve and entirely destroy every single sign and trace of it, no matter how much dandruff you may have.

You will find, too, that all itching and digging of the scalp will stop instantly, and your hair will be fluffy, lustrous, glossy, silky and soft, and look and feel a hundred times better.

You can get liquid arvon at any drug store. It is inexpensive, and four ounces is all you will need. This simple remedy has never been known to fail.

## HUSBAND SAVED HIS WIFE

Stopped Most Terrible Suffering by Getting Her Lydia E. Pinkham's Vegetable Compound.

Denison, Texas. — "After my little girl was born two years ago I began suffering with female trouble and could hardly do my work. I was very nervous but just kept dragging on until last summer when I got where I could not do my work. I would have a chill every day and hot flashes and dizzy spells and my head would almost burst. I got where I was almost a walking skeleton and life was a burden to me until one day my husband's step-sister told me that if he did not do something for me I would not last long and told him to get my medicine. So he got Lydia E. Pinkham's Vegetable Compound for me, and after taking the first three doses I began to improve. I continued its use, and I have never had any female trouble since. I feel that I owe my life to you and your remedies. They did for me what doctors could not do and I will always praise it wherever I go." — Mrs. G. O. LOWERY, 419 W. Monterey Street, Denison, Texas.

If you are suffering from any form of female ills, get a bottle of Lydia E. Pinkham's Vegetable Compound, and commence the treatment without delay.

### LEHIGH WILL FIGHT ORDER DIVORCING ROAD FROM STEAMSHIP LINE

Case to Come Before Federal Court on Injunction Hearing—Road Maintains Boats Simply Complete Their Rail Shipments.

Philadelphia, Mar. 16.—The temporary injunction granted last month in the United States District Court of Philadelphia to the Lehigh Valley Railroad Company, by which the rail line was permitted to operate its ships on the Great Lakes despite the orders of the Interstate Commerce Commission, comes up again in the federal court tomorrow. The railroad won the first point in its suit against the Commission, aimed to test the powers of that body under the Panama Canal Act, which provided for the divorce of the rail and steamship lines. But the main issue will come up today, when the government will defend the order of the commission, made in May, 1915, which prevented the Lehigh Valley from operating the vessels of the Lehigh Valley Transportation Co., on the Great Lakes.

The suit is the first one brought under the canal act, which was passed in 1912. This law provides that no railroad can have any interest whatever in any water line with which it does or might possibly compete. After a hearing before the Commission, the latter decided that the railroad was in competition with the Transportation Company, a corporation whose stock is owned by the railroad.

#### No Competition is Claimed.

The principal contention of the Lehigh Valley in the suit which it brings to retain ownership and control of its lake lines is that there is no competition between the rail and the steamship lines, for the reason that its rail lines end at Buffalo and that the water line begins at that point and ends at Chicago.

When the railroad made its argument last month for an injunction, it was pointed out for the government that there was no need of a preliminary injunction, as the property of the water line could not be used before the opening of the lake transportation season in April, when the ice is broken up. Shortly after the temporary injunction was granted, the Lehigh Valley appropriated a large sum for the repair of its vessels so that they would be ready for work when the season opens.

The Lehigh officials are firm in the belief that a permanent injunction will be granted as the result of the hearing tomorrow. The other railroads which operated or controlled steamship lines on the Great Lakes have already disposed of their holdings, and made no contest of the Interstate Commissions order to 'divorce' their steamships.

In answer to the argument that the Lehigh boat line is merely a continuation of the rail line, and in no sense a competitor, Counsel Edward W. Hines, for the Interstate Commerce Commission, has pointed out that the railroads favored by the Lehigh Railroad in shipping their freight west from Buffalo by rail returned the favor by shipping freight east from Chicago over the Lehigh boat line, thereby controlling a freight rate and shutting out competition of any individual steamship line that might begin business.

The personnel of the commission is as follows: mediators, John A. Moffitt and Hywell Davies, statisticians, B. M. Squires of the bureau of labor statistics. They have consulted with the members of the Alaskan railroad commission in Washington concerning the demands of the workmen, and have a general insight into the complaints.

Pending the arrival of the strike commission, President Campers of the American Federation has asked the men to resume work. There are less than seventy employees now working on the government project for the opening up of Alaska, but about 1,000 will be needed when warm weather comes, and the investigation of the commission will, in reality, affect the whole number. The men, mostly laborers, now get 37 1-2 cents an hour, and are striking for an increase to 50 cents. It is said in Washington that the government would be willing to grant some increase of pay to the men, it would not agree to the 50 cent rate.

#### A REMARKABLE PICTURE.

In the front window of the store of Johnson, Hackett & Guthrie is a picture of a royal Bengal tiger represented crouched on a desert with sandy waste all about him and the mountains in the distance. The work is wholly of wood in natural colors and is made by inlaying the pieces to accomplish the result and is very ingenious. The woods used are English oak, ebony, holly, kyanis, prima vera, French walnut, Italian walnut, ash, sycamore, silver maple and Turkish burl.

Jacob Strawn has changed his residence from Strawn's Crossing to the city and has taken a house on West North street. He and his family will be cordially welcomed to the city.

### MANIPULATION IS MORE OBVIOUS FEATURE OF IRREGULAR MARKET

Various Specialties Are Lashed Into Furious Activity at Times While Standard Stocks Are Barely Steady or Backward.

New York, March 16.—Manipulation was a more obvious feature of today's irregular market, various specialties being lashed into furious activity at times, while standard stocks were barely steady or backward. United States Steel led the erratic movement, advancing a point to 37 1/2, its best quotation of the present period but receding later in unison with other prominent issues.

Crucible Steel was second to United States Steel in point of activity. Ralls in general were a negligible factor aside from Canadian Pacific, which fell three points to 165 1/2; soon after announcement of the loan by our bankers to the Dominion of Canada, but retrieving some of this later.

Motors, sugars and Mexicans were in the forefront at intervals, all at substantial advances, but these for the most part felt the force of moderate pressure. Total sales 985,000 shares.

General news of the day included further advances in fabricated steel and iron completion of negotiations for a large loan to Canada, part of which is to be used to refund maturing obligations and increased weakness in exchange on Paris, which was quoted at 537 for demand, with some recovery on renewed purchases of bills, markets showed a better tendency and sterling was firm. American as a whole evinced more uniform strength in the London market.

### LARGER RECEIPTS THAN EXPECTED DEPRESS THE HOG MARKET

Cattle Offerings Prove to be For the Most Part of Unattractive Quality.

Chicago, March 16.—Larger receipts than expected had a depressing influence today on the hog market. Cattle offerings proved to be for the most part of unattractive quality. Quotations on sheep and lambs were upheld by the smallness of the supply.

150s—Receipts 32,000. Market weak at 5 to 10c decline. Bulk sales, \$9.60@9.75; light, \$9.20@9.75; mixed, \$9.35@9.80; heavy, \$9.30@9.80; rough, \$9.30@9.45; pigs \$7.90@9.00.

Cattle—Receipts, 5,000. Market firm. Native beef steers, \$7.60@9.95; western steers, \$7.40@8.60; stockers and feeders, \$6.00@8.25; cows and heifers, \$3.80@8.75; calves \$8.25@10.75.

Sheep—Receipts 10,000. Market steady. Wethers, \$8.20@8.30; ewes, \$6.00@8.65; lambs, \$9.50@11.50.

St. Louis Livestock Market. St. Louis, March 16.—Hogs—Receipts 1,000. Market 5c lower. Pigs and lights, \$7.00@9.75; mixed and butchers, \$9.75@9.95; good heavy, \$9.80@9.90.

### HESSIAN FLY DAMAGE IN NORTHERN KANSAS LIFTS THE PRICE OF WHEAT

Market Closes Steady at 1/4 to 1/2 Cents Net Advance—Profit-taking Wipes Out Most of an Advance in Corn.

Chicago, March 16.—Hessian fly damage to crops in northern Kansas tended today to lift the price of wheat and so too did many crop damage complaints from Nebraska and other winter wheat states. As a result, the market closed steady at 1/4 to 1/2 1/2 net advance, with May 1.11 1/2 and July 1.09 1/2 @ 1.09 1/2.

Corn finished 1/4 1/2 net off to 1/4 1/2 net up, oats at a shade decline to 1/4 1/2 net advance, and provisions varying from 12 1/2c down to a rise of 7 1/2c.

Definite word from Kansas quickly led to an upward movement in wheat. Nebraska reports said that in some of the best producing sections the winter killing amounted to 25 per cent. Missouri, Illinois, Indiana and Ohio advices continued to report losses that according to one comprehensive summary averaged 23 per cent or worse.

Profit-taking by longs wiped out most of an advance in corn. Oats paralleled the action of corn. The northwest reported liberal sales to the seaboard and so also did central Illinois. Active demand for greases put strength into the provision market, especially lard. Holders of pork and ribs, too, unloaded on the advance and caused something of a re-action.

## Some Topics of the Farm

## PUBLIC MONOPOLY OF MILK

## Municipal Distribution Under State Supervision.

No more private traffic in milk or cream—Better milk at no increased cost to consumers—Public health insurance—Better returns to producers—Building up agriculture—Radical plan of Rhode Island's state commission.

It is urged in Rhode Island by a state commission that has been studying agricultural needs, says the Orange Judd Farmer. The idea is not so revolutionary as appears on its face, at least in the middle and eastern states, where the whole-milk traffic is so enormous. But it is significant of great changes that are surely coming in distribution, when so conservative a state as "Little Rhody" takes so advanced a position. Its commission recommends, according to Orange Judd Farmer,

1. All cattle entering the state to be tuberculin tested, diseased stock to be killed and paid for at its wholesale value as food, or at three-quarters valuation for registered stock. Better breeding, better testing, better care to produce milk of good quality.

2. The state to fix regulations under which milk shall be produced and standards by which it shall be graded, including pasteurized milk. The New York standard to be the basis of grades.

3. Each city of 5000 population or more to monopolize its milk traffic. The one municipal milk depot is to take the milk in sealed cans from the producer, bring it to the city, deliver it to consumers, collect payment therefor and then pay the producers. Each city is to pay a fair price for any tangible property owned therein by any wholesale or retail milk dealers, but is not to pay anything for intangible, such as good will and milk routes. Thus the one municipal delivery would serve all the consumers in each street. Each public milk depot would be responsible to state control; no private peddlers or other milk dealers to operate at retail or wholesale.

4. Its purpose is to insure public health by supplying only pure milk to consumers at fair prices, yet by reason of the state and municipal monopoly so to reduce expenses of distribution that much better prices than heretofore may be netted by producers.

The indications now are that within a year or two a law to this effect will be enacted in Rhode Island. In that case the new plan will be given a thoro trial.

## Landlords, Attention!

In several cases that I am familiar with, the landlord and tenant each pays half the cost of the phosphate, but, if the plan is to apply 1,000 pounds per acre every four years, the tenant is reimbursed if he leaves the farm before the fourth year—three-fourths of what he has paid if he leaves at the end of one year, one-half after two years, and one-fourth after three years.

Other landowners furnish all the phosphate, but other terms of the lease may be made so that the landlord is reimbursed for what he pays for the tenant's share of the phosphate. Thus, if land is being rented to equal shares with phosphate applied, to change to the system of using phosphate the landlord may offer to renew the lease and furnish phosphate for a rental of one-half the crops and 50 cents an acre in cash. On a 320-acre farm this would amount to \$160, and, with an equal amount from the landlord, \$320 would be provided for phosphate. This would pay for more than 40 tons, which would provide 1 ton per acre on 40 acres or 1,000 pounds on 80 acres. An increase of \$600 due to the use of phosphate would thus bring a return

of nearly 200 per cent to both landlord and tenant.

This is co-operation, which, like charity, may well begin at home; and the landlord who cannot bring about the use of phosphate on his land when it will pay back more than 100 per cent needs either a guardian or a farm manager. He has a right not only to take advantage of the possibility of profitable investment in phosphate, but also to protect the fertility and productive power of his soil.—Dr. Cyril G. Hopkins, in The Farmers' Review, Chicago.

## Selling Hogs on Arrival.

The Drovers Journal in editorial comment points out that the reason hog prices slumped off slightly after the \$10 mark was reached was because shippers in hopes of advances, ordered their hogs held after arrival. As a result, many car loads shipped to Chicago during the latter part of last week and early this week were not available for the packers, the commission men having instructions to delay sale. The Drovers Journal declares that records show that if this action on the part of shippers were to become general, that the market invariably takes on a sluggish condition and that the buyers do not show their normal interest. The advice, then, from the paper quoted is for shippers to sell upon arrival and if they want to hold their hogs with the expectation of higher price levels, to do the holding on the home farm. It is freely predicted that advances will come until the \$10 mark has been passed, but there is no advantage gained, it seems, by shipping to the market and then holding back the sales.

## Threshing on Baldwin Farm.

Threshing was finished on the Stansfield Baldwin farm yesterday and wheat field of 18 acres produced an average in excess of 37 bushels to the acre. Mr. Baldwin has faith in higher prices and had had the grain stored in his bins. Abe Reid in the same neighborhood still has wheat to thresh, and a number of other farmers also have this work in prospect.

## Mr. Curry Buys Cattle.

A. A. Curry, following his usual plan, will have a large number of cattle on grass this summer. He recently purchased 183 head in Chicago. They had an average weight of 900 pounds and the purchase price was a little under 7c. Mr. Curry will soon put these cattle in his big pasture where with plenty of grass, water and shade at their disposal, good gains are expected. He may send them to market right off the grass or he may finish them with corn for a few weeks. During a long period Mr. Curry has followed this plan successfully.

## Ready to Plant Oats.

D. E. Kennedy, who has the name of each year planting oats before any of his neighbors, had his planting all planned for Tuesday, but the snow made postponement necessary. If all goes well next Monday will see the work begun. Mr. Kennedy believes he gets the best results when the seed is put in the ground early. He has sixty acres for oats this year. It is corn land, and after double discing it he will use a four-horse drill for the seeding. Clover will be planted with the oats about a bushel to eight acres, as Mr. Kennedy's opinion is that a better stand of clover comes from this heavy seeding.

## Cattle Brought High Prices.

Clinton, Iowa, March 16.—Thirty-nine head of short-horn cattle sold for \$15,500 at a public sale held on the farm of William Herkelman, a prominent Clinton county cattle man, yesterday. The top price was \$325 and the second \$300. Eight hundred people attended the sale, for which a special train was operated from Cedar Rapids.

## ORLEANS GRAIN COMPANY IS NOW FULLY INCORPORATED

Certificate Was Placed on Record at Court House Thursday—Capital of \$8,000 is Fully Subscribed—Names of the Stockholders.

The articles of incorporation of the Orleans Farmers' Grain company have been filed in the office of the circuit clerk. The stock of the company is \$8,000. Military affairs committee worked on army reorganization bill report. Agriculture committee considered bill for government nitrate production plant.

Passed bill to appropriate \$2,065,000 for equipping Puget Sound navy yard to build battleships.

Military committee completed drafting administration army bill increases.

Adjourned at 5:25 p. m. to noon Friday.

## House.

Met at noon. Resumed debate on free sugar repeal.

Rear Admiral Benson testified before naval committee on navy operations.

Passed, 346 to 14, bill to repeal provision of tariff law which would put sugar on free list after May 1st.

Adopted rule for taking up administration bill at 11 o'clock in vote on its passage after ten hours' general debate.

Adjourned at 5:20 p. m. to 11 a. m. Friday.

## Wire Your Home Campaign

This is a movement of national scope, going on in every city where electric current may be had. It's to be an educational campaign to show home-lovers how they can live far more comfortably at no added expense. All installation work is to be done at cost, and bill may be spread over two years, making the initial cost per month merely nominal, while genuine home comforts are being enjoyed.

## Only 25% of Jacksonville Homes Are Wired for Electric Current---Why?

We do not believe that this condition would long exist if house owners really understood how cheaply wiring can be done, and the certain advantages to be derived. Any home, no matter how old, easily wired through present day methods. That idle house will rent at once if electrically equipped and otherwise put in condition. There is no question about it.

## Study These Propositions

## They Are at Actual Cost---Consider Well the Advantages

PLAN A—Five rooms wired complete, with drop cords ..... \$22.50

PLAN B—Five rooms wired complete, with drop cords, porch light and flush switch ..... \$29.75

PLAN C—Five rooms wired complete, with three drop cords, 2 two-light fixtures and porch light and flush switch ..... \$37.75

PLAN D—Six rooms wired complete, with drop cords ..... \$25.00

PLAN E—Six rooms wired complete, with drop cords, porch light and switch ..... \$30.50

PLAN F—Six rooms wired complete, with four drop cords and two two-light fixtures ..... \$34.50

PLAN G—Six rooms wired complete, same as proposition "F" with porch light and flush switch ..... \$40.50

PLAN H—Eight rooms wired complete, with drop cords ..... \$31.50

It really is such a simple matter to bring electricity to your home, with all its comforts and the wonderfully convenient household short-cuts it makes possible. And this present "At Actual Cost" campaign, with its "Two Years to Pay" proposition, makes it an economical investment not to be thoughtlessly passed by.

## JACKSONVILLE RAILWAY AND LIGHT CO

## A REMARKABLE FIGHT.

M. V. B. Wyatt has received word of the serious illness of one of his mess in the army during the Civil war. The invalid is Michael Burnett, now of Springfield and Mr. Wyatt hears that death may be expected almost any time.

Mr. Wyatt was a member of a mess of eight men who had a record seldom if ever equaled. They were M. V. Wyatt, J. W. Luttrell, John Ben Burch, Washington Kennedy, John Wyatt, William Criswell, Wiley Gunn and Michael Burnett mentioned above. Mr. Wyatt was orderly sergeant. Messrs. Luttrell and Burch were sergeants lower down, Kennedy was a corporal and the others were privates. The man belonged to the 14th Ill. Infantry and all thru their three years of service saw many hard fought engagements and severe campaigning including the siege of Vicksburg.

Not one was wounded in an engagement; not one was sick, not one was absent from duty during the three years and not one was in a hospital and all lived forty-nine years after the war. Two years ago Mr. Criswell died and since that time Messrs. Burch, John Wyatt and Gunn have passed away. Mr. Luttrell lives in Waverly and Mr. Kennedy in Sedalia, Mo.

Mr. Wyatt had two close calls. While at the siege of Vicksburg he was stationing videttes and while returning a rebel shell came shrieking along and struck a tree near him and exploded, tearing the tree rearfully. Had it not been for the tree Mr. Wyatt would have been blown to atoms. As it was the concussion prostrated him and burst the drum of his right ear which has ever since been affected. He held up bravely and didn't go to the hospital though his comrades supposed he was dead at first.

At another time his regiment was moved on a railroad and as but one

freight car was assigned to a company and they had to store the tents and goods in the car and ride on top. Passing by a water tank the weight slung to balance the descending pipe struck Mr. Wyatt on the side of his head knocking him backwards and as he was going down between the cars his comrades caught his feet and pulled him back. As soon as the train reached its destination the injured man was taken to an old cotton warehouse and was obliged to lie without a surgeon all night and in the morning when the official appeared he examined the wound and started out without doing anything. The injured man feebly demanded attention but the doctor told him it was hardly worth while as he couldn't live, but to satisfy him he returned, cut away the matted hair and sewed up the wound without trying to replace the depressed skull which he was asked to do at once.

Mr. Wyatt lay in the shed till able to join his command but he will always carry the depression on his

skull which the negligent surgeon failed to attend as he should. Mr. Wyatt is almost eighty years of age and gets about wonderfully well though he suffers more or less from the two injuries mentioned.

## FEAST TASTER FEARS HE MAY BE DEAD HERO.

Chicago, March 16.—William J. Healy has figured out that he will be a ten-course hero or a corpse by tomorrow night. He has been chosen as "official taster" at the Irish Fellowship Club's St. Patrick's Day banquet, which Archbishop Mundelein, ex-President Taft and other distinguished guests are expected to attend. Healy will taste each one of the ten courses before it is served to the guests. The club is taking no chances with soup plots and anarchists.

## FINE CLOTHES FOR GENTLEMEN. Products of the Jacksonville Tailoring Company Please Customers.

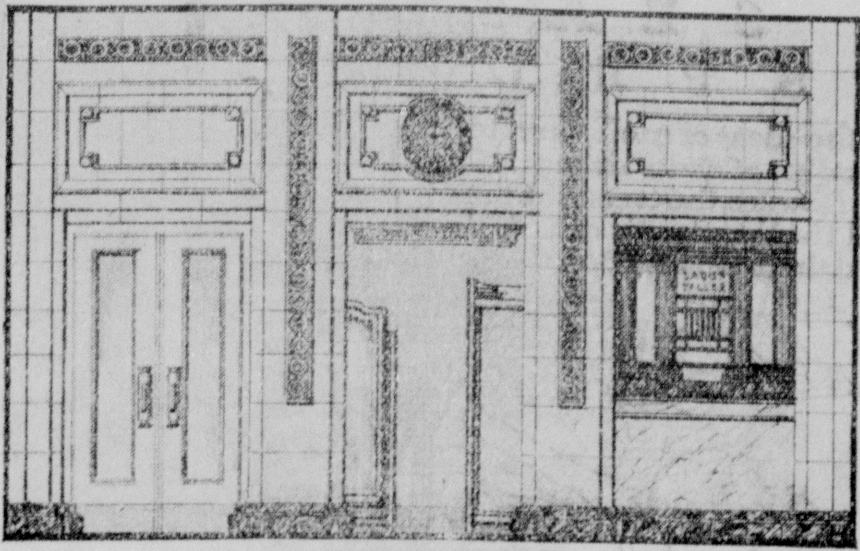

As spring approaches gentlemen must take into account their needs in the line of clothes and to that end they will be sensible if they investigate the attractions of the Jacksonville Tailoring company on East State street. This establishment believes in the motto, "Live and let live," and while their work and material are the best their prices are within the reach of persons of moderate means.

At present they have a new line of suitings well suited to this market and the force to make them up in a style and manner that will be sure to please the most fastidious. The goods are well selected and can't fail to please and the fact is well known that a good tailor made fit is a luxury.

THE AYERS NATIONAL BANK  
JACKSONVILLE, ILLINOIS

SPECIAL OPENING DAY  
BROUGHT MANY VISITORS

Stocks Were Well Displayed and the Merchants Proved They Have Made Ample Provision for Spring and Summer Business.

For a number of days it has been very evident that something unusual was going on in retail circles in Jacksonville. Merchants have been busy adorning their places of business and the people have been anxiously awaiting the 16th day of March, the date set for the grand opening by the retailers of Jacksonville. The affair was every way successful and the business men and clerks went home tired they had good reason to be pleased with the results of the day.

For weeks the window dressers were planning their designs and the results were very gratifying. The millinery stores naturally had their special innings and right well did they improve the occasion. The latest and choicest goods in the market were laid under contribution and their choicest products found their way to the windows and counters of these merchants.

The dry goods men came in for a full share of glory and well improved the opportunity given them to make a special display of the latest in all kinds of seasonal goods for the wear of ladies especially and windows were brilliant in colors and choice goods.

Dealers in ladies' ready to wear goods had their lines ready for inspection and the same was true of clothing merchants. Among business district visitors ladies predominated and goods in their line had the special right of way, still the articles, used exclusively by gentlemen had plenty of attention.

Dealers in boots and shoes let it be known they are in evidence also and displayed their wares in a very tasty manner. The fact that shoes are being made more and more artistically every year and that the styles change now as in hats and clothes makes the successful shoe merchant one of the most careful buyers in the world. The hardware merchants had much to say in various ways; dealers in music and musical instruments were heard from in no uncertain manner; jewellers took great pains to trim their windows in a way to excite delight; furniture and house furnishing men had a splendid chance to show their choicest goods. There are several dealers in this line who carry large stocks and cater to the trade of the city and country in a manner worthy of the large patronage they enjoy.

Book stores were not lacking while lunch caterers and confectioners of the first class manifested a fine public spirit in their displays and efforts to please the people. The 5 and 10 cent stores were packed a good part of the day with visitors well pleased. Other lines were well represented and all seemed in the best of spirits and the day was successful.

Merchants who co-operated in special display day plans were:

Andre & Andre; E. W. Bassett; Brady Bros.; J. P. Brown; Jos. Burgett; Frank Byrns; C. J. Deppe & Co.; North Side Drug Store; Muehlhausen Bros.; Geo. T. ## A SUCCESSFUL OPENING

The North Side Drug Store Thronged All Day.

The North Side drug store was thronged from morning till night yesterday by a stream of pleased callers gathered to inspect the new place. They were surprised to find in a well ordered drug store such a fine luncheonette supplied with best soda water, nice lunch articles and confectionery all neatly and promptly served, appetizing and attractive and at fair prices. This place can not fail to become popular with those who wish to enjoy a nice lunch or refreshing drink while they have an opportunity to buy drugs, stationery and many other articles and will shortly be able to get nice job printing at the same place.

Benjamin Brown, Bert Carpenter and Thomas Brown were in the city from Sinclair yesterday.

## NOTICE.

Complying with the recent order issued by our City Council, it is necessary that we cancel our contracts for oiling the paved streets during the coming season.

We appreciate the fact that the majority of our business men prefer the oil as a dust layer, but we must submit to the powers that be and use the city water.

We will be delayed a few days because of this order as we will be compelled to make a new canvass and make new contracts. Now join us on the "Water Wagon," because we must keep down the dust.

FUNERAL OF CHARLES H. CONDIT  
IN WINCHESTER SATURDAY

Services Will Be Held at M. E. Church With Rev. Mr. Caseley in Charge—Death of Richard Kelley and Other Scott County Notes.

Winchester, Ill., March 16.—The funeral of the late Charles Condit of Winchester, mention of whose death was made in the Journal yesterday, will be held at Winchester M. E. church Saturday afternoon at 2:30 o'clock in charge of the Rev. C. W. Caseley. Mr. Condit had been prominent in his home community and surrounding territory for so long a period that the services will be largely attended. Henry Condit of Winchester, a brother of the deceased, was in Jacksonville Thursday to see a number of the relatives of the deceased. Mrs. Sarah James is an aunt, and cousins are Mrs. Thomas Willerton, Mrs. Annie Dody, Mrs. Lillie Angelo and Levy James, all of Morgan county.

Mr. Condit was born March 30, 1860. He was a pupil in the public schools and at the age of 17 took the position of assistant deputy mutual revenue collector. Later he was transferred to Denver, Colo., and in 1881 returned to Illinois and engaged with his brother, T. K. Condit, in the banking business in Arcoville. In 1886 Mr. Condit entered the Winchester bank firm. Mr. Condit's marriage took place in 1885, his bride being Miss Abbie Cray of Milton, Ill.

**Death of Richard Kelley.**  
The death of Richard Kelley took place Wednesday night at his home in the west part of town. He leaves a wife and one sister, Mrs. Clarkson. A brother, Joseph Kelley, survives him and two brothers, John and James Kelley, have already passed on. Mr. Kelley was 77 years of age. Funeral services will be held at 11 o'clock.

**Owings Funeral Held.**  
The funeral of Miss Eliza Owings was held Thursday morning at 10 o'clock at the Methodist church, with the Rev. C. E. Caseley in charge. Music was furnished by the church choir. The church was well filled with a concourse of relatives and friends. The burials were Irwin Coultas, Elbert Coultas, T. J. P. Coultas, R. H. Coultas, Robert Hawk and Thomas Bean. Burial was made in Kincaid cemetery.

**Personal Mention.**  
Mrs. William Kincaid and daughter, Dean, left Thursday for a visit in Jacksonville.

Mrs. C. W. Caseley is quite ill at her home here.

Miss Nellie Lashmet returned Thursday morning from a visit of ten days in Chicago.

Ladies of the Presbyterian church will hold their March and April birthday social today at the home of Miss Anna Munze.

The chicken supper which was to have been given Thursday night by ladies of the Methodist church was postponed until Thursday, March 23, on account of the death of C. H. Condit.

## TALK ABOUT NEW STREET SWEEPER.

The city council discussion of the purchase of a street sweeper resulted in the visit yesterday of a representative of the Baker Manufacturing company producing dustless street sweepers. The sweeper is made of a series of hooded brooms which sweep the refuse into receptacles, from which it is dumped at stated intervals. The hoods are of such size that with the streets in average condition they can carry the dirt for three or four blocks without dumping. The company maintains that the dustless sweeper is a much more satisfactory apparatus for work than the flusher and does not cause the trouble likely to come from washing so much dirt into the sewers.

## WALTER O'DAY SUFFERS

**STROKE OF APOPLEXY.**  
Danville, Ill., March 16.—Walter O'Day of Nooga, who was defeated for nomination as Republican candidate for congress by Joseph G. Cannon in 1912, suffered a stroke of apoplexy here tonight. He was taken to a hospital where later it was announced that he was improving. He has been here for several days attending the trial of Dr. Logan Miller and John C. Miller of Mattson and Nooga, charged with using the mails to defraud.

## SELL CROOKED

**CREEK RAILROAD.**  
Webster City, Iowa, March 16.—The Crooked Creek railroad extending from Webster City to Lehigh was sold today to W. R. Dyer of Boone, who represented the Fort Dodge, Des Moines and Southern Interurban company. The price paid was \$112,500. Claims aggregating \$116,000 are outstanding against the railroad.

SALVATION ARMY CAMPAIGN  
TO BEGIN AT EARLY DATE

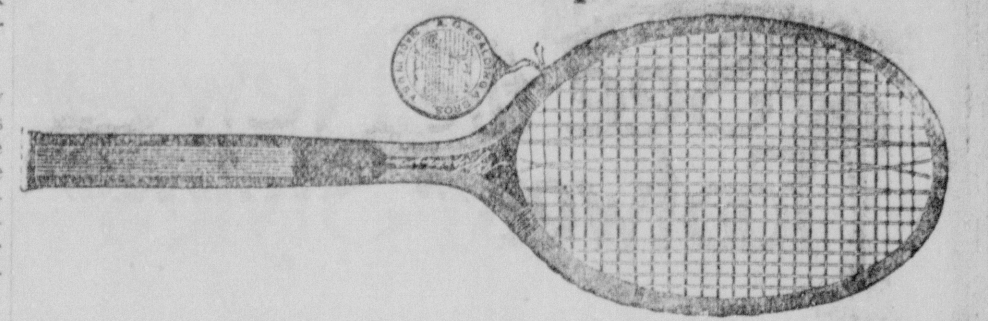

Local Committee Will Begin Work of Raising Fund Needed For Betterment.

Capt. Mace of the Salvation army said yesterday that the local citizens who have agreed to take an active interest in the campaign to raise funds for the army, have about completed their plans. It is the expectation that this work will begin within a week's time and an early meeting of the committee is to be held. As previously stated, it is the purpose to make certain greatly needed betterments at the Salvation army citadel and at the home of the captain. During a continued revival effort the ranks of the army were augmented in a large degree and all affairs connected with the army are in a prosperous condition.

If the organization is to do the good work possible and which the present membership wants, the proposed improvements must be had. The purpose of the Salvation army is to exert religious influence on the lives of men, women and children, but in accomplishing that end the methods are very different from those common in the churches. The army has an opportunity for doing good in a great variety of ways and it is for the purpose of increasing the possibilities for good that the present campaign is to be undertaken.

### CREATIONS OF FASHION CENTERS IN THE CITY

HERMAN'S SPRING DISPLAY RIVALS THE BEST EFFORTS OF THE METROPOLITAN ESTABLISHMENTS.

Delighted Throng Enjoy the Beautiful Array of Millinery and Ready to Wear Goods and Superb Music From Morning till Night.

The people of Jacksonville have learned during the past quarter of a century that when Herman promises anything the performance is sure to follow and the announcement of an opening which the centers of fashion have been laid under contribution to supply with the very latest and best in ready to wear garments and seasonable millinery was enough to attract the ladies of this city and vicinity and they well knew they would not be disappointed and they were not and at night every visitor voted the affair a splendid success.

Mr. and Mrs. Herman and their lady trimmers spent a great deal of time in the metropolitan markets seeking the very best that money could buy in the line of their store and the result has been just what would be expected. Polite ladies were everywhere ready to show visitors thru the beautiful store and display the unusual attractions of the place and all were absolutely delighted with what they saw.

In the first place Mr. and Mrs. Herman have fine taste and long experience and then they are fully acquainted with the wants of this city and vicinity so that when they select a stock of goods in either department it is sure to be just what the ladies in these parts most admire.

#### PHILOLOGICAL SOCIETY MEETS.

A regular meeting of the Philological Literary society of Whipple academy was held Thursday night in the society hall in north Crampton. Oscar Thibault, president of the society for the semester, presided. George Garrison, Horatio Green and R. Bronson gave declamations, all of which were interesting and appropriate. After a reading by Mr. Thibault and an essay by Byron Winslow, the debate was held, the question being: "Resolved, that compulsory military service be instituted in the high schools of Illinois." The decision was unanimously in favor of the affirmative, upheld by Charles Capps and Wesley Louwers against Byron Cully and Frank Coakley.

Miss Susan Brown, daughter of Mr. and Mrs. W. T. Brown of this city, has returned home from an extended sojourn in New York City.

#### "HEAVEN" IS PASTOR'S THEME AT BAPTIST CHURCH REVIVAL

"The Judgment," to be Given Tonight, Will Conclude Bible Sermon Series—Revival Meetings Will be Closed Sunday.

The First Baptist church was crowded last night. The Rev. Percy W. Stephens preached on "Heaven" and at the close of the sermon Mr. Allen sang "Memories of Mother," Rev. P. A. McCarty lead in prayer, Mr. Allen and Harry Beckman sang a duet, "Jesus Leads." "The Sinner and the Song" was again rendered by the quartet and chorus with Mr. Allen as soloist.

The subject of the sermon tonight will be "The Judgment" and this will be the last of the Bible series of expository sermons. The meeting will close on Sunday next when at the morning service Mr. Stephens will give a special message to young Christians entitled, "The Purpose of Salvation" and at the evening service will speak on "Nearly Saved."

Mr. Allen will leave Saturday morning for Massachusetts where he will conduct the music and sing at a union meeting at Athol. Because of this, Friday night will be the last appearance of Mr. Allen in this city, at least for the present. Many are hoping that he will soon return.

It has been announced that a tent offering will be received at the Friday night service.

Preceding the service Mr. Stephens read Revelation, Chap. 21, following which Mr. Allen sang, "In the Land of Cloudless Day."

The sermon was one of intense interest. Mr. Stephens pointed out that Heaven is a city of imperishability, a city of immensity, a city of beauty, a city of purity and a city of welcome. Anyone may enter who is willing to pay the price of repentance and faith in Christ.

#### ELECTION INTEREST IN NOKOMIS

Mrs. James H. Danskin has returned from Nokomis, where she went to make several addresses before the women's organization which is taking an active part in the anti-saloon campaign there. An election is to be held the second Tuesday in April. Nokomis was without saloons two years ago but because the present council was divided on wet and dry lines, conditions there have been very unsatisfactory. The council has refused to confirm the police appointed by the mayor and so no officers have been on duty for some time.

#### CAPT. OWEN MAKES CALL FOR PROSPECTIVE VOLUNTEERS

Young Men May Secure Benefit of Drill Without Regular Enlistment in Company B.

The following letter from Mr. Percy Owen, captain of Company B, makes request for names of young men for conditional enlistment. A number sufficient to raise the company to full war strength has already been made up:

"Because of the probable mobilization of the National Guard for service in the Mexican border, I am authorized to accept the names of prospective volunteers for that service."

"Names of young men physically able, and willing to go, when the call comes, will be accepted by Lieutenant Thomas K. Hale or Lieutenant Harrison A. Dickson at Armory hall."

"There will be nothing binding on any man who gives his name, but he will be given preference over the rush of men, who come after the call."

"The men who give their names may drill, without enlisting with Company 'B' and gain practical experience that will be of great value when troops are mobilized."

#### AN APPRECIATION.

We desire to express our great appreciation of the manner in which our grand spring opening was received by the ladies of Jacksonville and vicinity, and of the liberal praise bestowed upon our showing and efforts.

We shall continue our formal showing of the new styles in millinery during Friday and Saturday of this week.

#### AT NICHOLS PARK.

Teams and men have begun work at the south end of the park preparing a driveway approaching the new culvert and the custodian is hauling in some broken stone formerly used in the spillway of the dam to be used at the same place. It is the expectation to meet before long with golf players and have an amicable understanding regarding that game and the people who play it so that all will be just as satisfactory and harmonious as possible. The attitude of the park board is kindly toward the golf game and toward everything that pertains to the welfare and amusement of the people of Jacksonville and vicinity.

#### NEW CHICAGO & ALTON SCHEDULE TO GO INTO EFFECT APRIL 2

Thru Chicago-St. Louis Train Will Run on Times of No. 32 and No. 33—Better Springfield Service.

The new Chicago and Alton time table which for several weeks has been anticipated by employees and patrons of the road, will go into force Sunday, April 2, according to word received by D. C. Diltz, the local Alton agent. Mr. Diltz expects to receive definite announcement of the changes to be made within a few days.

The main change of time will be in the case of train No. 32, arriving here at 11:50 a. m., and returning to St. Louis at 3:30 in the afternoon. This train will be sent thru from St. Louis to Chicago. There will be a lay over in Jacksonville of about an hour and a half and the train will leave about 1:30 p. m., for the north. Returning as No. 33, the train will leave Chicago at 8:45 a. m., and will reach Jacksonville sometime between 3 and 3:30 o'clock in the afternoon, going from here direct to St. Louis.

Another welcome change will be the improvement in the service to and from Springfield. It is planned to restore service over the Murraville cut off, making it possible to leave Springfield each evening at 7 o'clock and to arrive in Jacksonville over the 8:50 train from the south. Connections may be made with the B. & O. at Ashland by passengers leaving Jacksonville at 1:30 on the new thru train. The Kansas City express will leave Chicago about 4:30 o'clock in the afternoon and will reach Jacksonville some time near the hour of 11 o'clock instead of 8:28 as is now the case. This train will carry thru sleeping car service from Bloomington to Kansas City. Several sections will be assigned to this station and it will be possible for passengers to board the train here and go direct to Kansas City without change. Local passengers will transfer to No. 9, the Red Hummer from Springfield, reaching Roodhouse at 12:25 a. m. This plan will be especially convenient for Kansas City passengers as the long wait of about three hours will be done away with.

Several smaller changes are contemplated that it may be that the time of the 6:20 a. m. train for the north, the 6:05 a. m. south bound train, as well as the Chicago Red Hummer and the Alton Nightingale to Kansas City, will remain without change. The Peoria-Bloomington accommodation reaching Jacksonville at 5 p. m., will arrive about an hour later.

**FINE MUSICAL INSTRUMENTS.**  
J. P. Brown, southwest corner square has on display a fine collection of music of every kind; also violas, ukuleles, okarinas and other musical instruments.

#### THE PHI ALPHA TRI- ENNIAL REUNION

This is Phi Alpha year in Illinois college and great preparations are being made for the event. The committee in charge consists of S. W. Nichols, chairman; C. E. Robinson, past members; C. A. Gustafson; W. H. Heath and P. F. Watkins, active members of the society. Already the committee has invited a number of well known and eloquent speakers, most of whom have accepted and an usually fine time is anticipated. There is also a lingering hope that the first president, the honored Dr. William Jayne of Springfield, may be induced to spend a part of the evening with the gathering though of course it is not at all certain as he is about ninety years old and naturally not very strong and vigorous though his love for the society doesn't grow less with his passing years.
